CANADIAN JOURNAL OF MICROBIOLOGY

JOURNAL CANADIEN DE MICROBIOLOGIE

VOLUME 31, 1985

Author Index / Index des Auteurs

Adams, P.B.
Interaction of *Laterispora brevirama* and the mycoparasites *Sporidesmium sclerotivorum* and *Teratosperma oligocladum*
W.A. Ayers and P.B. Adams **786**

Adjimani, J.P.
A comparative study of properties of chitin synthase from two *Mortierella* species
J.P. Adjimani and M.S. Manocha **1035**

Albesa, I.
A thiol-activated hemolysin in Gram-negative bacteria
Inés Albesa, Lucila Isabel Barberis, María Cristina Pajaro, María Cecilia Farnochi, and Alberto Jorge Eraso **297**

Allermann, K.
Preparation of protoplasts from mycelium and arthroconidia of *Geotrichum candidum*
T. Jacobsen, B. Jensen, J. Olsen, and K. Allermann **93**

Allgood, G.S.
Oxygen defense systems in obligately thermophilic bacteria
Gregory S. Allgood and Jerome J. Perry **1006**

Alt, S.G.
Competition studies with fast-growing *Rhizobium japonicum* strains
Thomas J. McLoughlin, P. Ann Owens, and Scott G. Alt **220**

Altosaar, I.
Purification and some properties of the extracellular α-amylase from *Aspergillus awamori*
R.S. Bhella and I. Altosaar **149**

Alvarez, M.E.
Influence of nitrogen source and growth status on glutamine synthetase and glutamate synthase activity in *Mycobacterium avium*
Charlotte M. McCarthy and Maria E. Alvarez **211**

Amiard, J.C.
Tolérance au zinc et au cadmium et accumulation du zinc par les bactéries marines à Gram négatif: relations avec leur type respiratoire
M.J. Gauthier, V. Breittmayer, R. Clément, G.N. Flatau et J.C. Amiard **793**

Amundrud, D.G.
Description of an unusual Gram-negative anaerobic rod isolated from periodontal pockets
D.G. Amundrud, I.R. Hamilton, and G.H. Bowden **97**

Anderson, J.F.
Spotted fever group rickettsiae in immature and adult ticks (Acari: Ixodidae) from a focus of Rocky Mountain spotted fever in Connecticut
Louis A. Magnarelli, John F. Anderson, Willy Burgdorfer, Robert N. Philip, and W. Adrian Chappell **1131**

Andrews, J.H.
Benomyl-marked populations of *Chaetomium globosum*: survival on apple leaves with and without benomyl and antagonism to the apple scab pathogen, *Venturia inaequalis*
Daniel Cullen and John H. Andrews **251**

Antoun, H.
Inhibition de champignons phytopathogènes par des bactéries isolées du sol et de la rhizosphère de légumineuses
S. Gagné, H. Antoun et C. Richard **856**

Archibald, F.
Catalase, superoxide dismutase, and the production of O_2-sensitive mutants of *Bacillus coagulans*
Michael Vassilyadi and Frederick Archibald **994**

Arguelles, J.C.
Evidence for regulatory trehalase activity in *Candida utilis*
J.C. Arguelles and M. Gacto **529**

Asanuma, S.
Use of the enzyme-linked immunosorbent assay (ELISA) in the detection of *Rhizobium* both in culture and from root nodules of soybeans and cowpeas
S. Asanuma, G. Thottappilly, A. Ayanaba, and V. Ranga Rao **524**

Ayanaba, A.
Use of the enzyme-linked immunosorbent assay (ELISA) in the detection of *Rhizobium* both in culture and from root nodules of soybeans and cowpeas
S. Asanuma, G. Thottappilly, A. Ayanaba, and V. Ranga Rao **524**

Ayers, W.A.
Interaction of *Laterispora brevirama* and the mycoparasites *Sporidesmium sclerotivorum* and *Teratosperma oligocladum*
W.A. Ayers and P.B. Adams **786**

Azcona, J.I.
Effect of growth temperature on lipid composition of *Streptococcus faecium*
J.A. Ordóñez, L. de la Hoz, J.I. Azcona, and B. Sanz **361**

Babich, H.
Training of *Rhizopus stolonifer* and *Cunninghamella blakesleeana* to copper: cotolerance to cadmium, cobalt, nickel, and lead
A. Garcia-Toledo, H. Babich, and G. Stotzky **485**

Backhouse, D.
Histochemical changes during conidiogenic germination of sclerotia of *Botrytis cinerea*
D. Backhouse and H.J. Willetts **282**

Baird, B.H.
Determination of phospholipid ester-linked fatty acids and poly β-hydroxybutyrate for the estimation of bacterial biomass and activity in the rhizosphere of the rape plant *Brassica napus* (L.)
Anders Tunlid, Bruce H. Baird, Melanie B. Trexler, Steffan Olsson, Robert H. Findlay, Goran Odham, and David C. White **1113**

Balagopal, C.
Cyanide degradation by *Rhizopus oryzae*
G. Padmaja and C. Balagopal **663**

Banerjee, S.K.
An unsaturated fatty acid mutant of *Aspergillus niger* with partially defective Δ^9-desaturase
Panchanon Chattopadhyay, Santu Kumar Banerjee, Kalyani Sen, and Parul Chakrabarti **346**

Lipid profiles of *Aspergillus niger* and its unsaturated fatty acid auxotroph, UFA_2
Panchanon Chattopadhyay, Santu Kumar Banerjee, Kalyani Sen, and Parul Chakrabarti **352**

Barak, R.
Antigenic differences among several *Trichoderma* isolates
Rina Barak, Arieh Maoz, and Ilan Chet **810**

Barberis, L.I.
A thiol-activated hemolysin in Gram-negative bacteria
INÉS ALBESA, LUCILA ISABEL BARBERIS, MARÍA CRISTINA PAJARO, MARÍA CECILIA FARNOCHI, and ALBERTO JORGE ERASO **297**

Barbès, C.
Restriction-modification systems in *Streptomyces antibioticus*
JESÚS SÀNCHEZ, COVADONGA BARBÈS, ANGELES HERNANDEZ, CLARA-ROSA G. DE LOS REYES GAVILÀN, and CARLOS HARDISSON **942**

Barnard, M.
Isolation and characterization of the peptidoglycans from selected Gram-positive and Gram-negative periodontal pathogens
M.R. BARNARD and S.C. HOLT **154**

Effects of peptidoglycans from periodontal pathogens on selected biological activities of CD-1 murine peritoneal macrophages
M. BARNARD and S.C. HOLT **161**

Barrows-Broaddus, J.
Evaluation of *Arthrobacter* sp. for biological control of the pitch canker fungus (*Fusarium moniliforme* var. *subglutinans*) on slash pines
JANE BARROWS-BROADDUS, L.D. DWINELL, and T.J. KERR **888**

Bashan, Y.
An improved selection technique and medium for the isolation and enumeration of *Azospirillum brasilense*
YOAV BASHAN and HANNA LEVANONY **947**

Batt, C.A.
Analysis of xylose operon regulation by Mud (Ap^r, lac) fusion: trans effect of plasmid coded xylose operon
C.A. BATT, M.S. BODIS, S.K. PICATAGGIO, M.C. CLAPS, S. JAMAS, and A.J. SINSKEY **930**

Bauchop, T.
Lipid composition of an obligately anaerobic fungus *Neocallimastix frontalis* isolated from a bovine rumen
DENIS R. BODY and TOM BAUCHOP **463**

Bawdon, R.E.
Determination of mercury and organomercurial resistance in obligate anaerobic bacteria
JAMES T. RUDRIK, ROGER E. BAWDON, and STEPHEN P. GUSS **276**

Begum, A.
Properties of chitin synthase from mucoraceous hosts of a mycoparasite
M.S. MANOCHA and A. BEGUM **6**

Bender, G.R.
Barotolerant variant of *Streptococcus faecalis* with reduced sensitivity to glucose catabolite repression
JOHN CAMPBELL III, GARY R. BENDER, and ROBERT E. MARQUIS **644**

Ben-Efraim, A.
Involvement of fungi in the increase of free fatty acids in stored soybeans
N. LISKER, A. BEN-EFRAIM, and Y. HENIS **799**

Bengis-Garber, C.
Membrane-bound 5′-nucleotidase in marine luminous bacteria: biochemical and immunological properties
CARMELA BENGIS-GARBER **543**

Bérenger, J.-F.
Production, purification, and properties of thermostable xylanase from *Clostridium stercorarium*
JEAN-FRANÇOIS BÉRENGER, CHANTAL FRIXON, JACQUELINE BIGLIARDI, and NICOLE CREUZET **635**

Bergeron, G.
Ultrastructural changes observed in *Rickettsia rickettsii* incubated at different temperatures in cell-free medium
R.D. PONTEFRACT, C.W. NG, and G. BERGERON **305**

Berthelin, B.
Sélection et analyse de mutants thermotolérants de *Zymomonas mobilis*, producteurs d'éthanol
BÉNÉDICTE BERTHELIN, JOSEPH ZUCCA et JEAN-FRANÇOIS MESCLE **934**

Beuchat, L.R.
Independent development of heat resistance and ascospores of *Hansenula anomala*
WANFANG SU, L.R. BEUCHAT, and R.E. WORTHINGTON **45**

Beveridge, T.J.
Discontinuity of charge on cell wall poles of *Bacillus subtilis*
E.M. SONNENFELD, T.J. BEVERIDGE, and R.J. DOYLE **875**

Bewa, H.
Efficiency of various bacterial suspensions derived from cecal floras of conventional chickens in reducing the population level of *Salmonella typhimurium* in gnotobiotic mice and chicken intestines
SYLVIE HUDAULT, HILAIRE BEWA, CHANTAL BRIDONNEAU, and PIERRE RAIBAUD **832**

Bewley, R.J.F.
Bacterial and fungal activity in sulphur dioxide polluted soils
R.J.F. BEWLEY and D. PARKINSON **13**

Bhella, R.S.
Purification and some properties of the extracellular α-amylase from *Aspergillus awamori*
R.S. BHELLA and I. ALTOSAAR **149**

Bigliardi, J.
Production, purification, and properties of thermostable xylanase from *Clostridium stercorarium*
JEAN-FRANÇOIS BÉRENGER, CHANTAL FRIXON, JACQUELINE BIGLIARDI, and NICOLE CREUZET **635**

Bird, S.E.
Proton motive force as a function of the pH at which *Methanobacterium bryantii* is grown
G. DENNIS SPROTT, SHARON E. BIRD, and IAN J. MCDONALD **1031**

Blaschek, H.P.
Development of a cell wash buffer that minimizes nucleic acid loss from *Clostridium perfringens* 10543 A
HANS P. BLASCHEK and MICHAEL A. KLACIK **575**

Blobel, H.
Binding of α_2-macroglobulin and haptoglobin to *Actinomyces pyogenes*
CHRISTOPH LÄMMLER, GURSHARAN S. CHHATWAL, and HANS BLOBEL **657**

Block, T.
Genetic linkage but independent expression of functional HSV-1 *tk* and mammalian *aprt* genes after cotransfer to L cells
TIMOTHY BLOCK, JOHN BRZYKCY, NICHOLAS HASTIE, and ROBERT G. HUGHES, JR. **311**

Bodenmann, J.
Extracellular enzymes of *Phytophthora infestans*: endo-cellulase, β-glucosidases, and 1,3,-β-glucanases
JAKOB BODENMANN, URSULA HEINIGER, and HANS R. HOHL **75**

Bodis, M.S.
Analysis of xylose operon regulation by Mud (Ap^r, lac) fusion: trans effect of plasmid coded xylose operon
C.A. BATT, M.S. BODIS, S.K. PICATAGGIO, M.C. CLAPS, S. JAMAS, and A.J. SINSKEY **930**

Body, D.R.
Lipid composition of an obligately anaerobic fungus *Neocallimastix frontalis* isolated from a bovine rumen
DENIS R. BODY and TOM BAUCHOP **463**

Boland, J.A.V.
Isolation de micro-organismes du genre *Listeria* à partir de lait cru destiné à la consommation humaine
LUCAS DOMÍNGUEZ RODRIGUEZ, JOSE F. FERNÁNDEZ GARAYZABAL, JOSE A. VAZQUEZ BOLAND, ELIAS RODRIGUEZ FERRI et GUILLERMO SUAREZ FERNÁNDEZ **938**

Bollman, R.C.
Heterotrophic potential of the green alga, *Ankistrodesmus braunii* (Naeg.)
R.C. BOLLMAN and G.G.C. ROBINSON **549**

Bolton, R.W.
Purification and chemical characterization of an exopolysaccharide isolated from *Capnocytophaga ochracea*
J.K. DYER and R.W. BOLTON **1**

Bowden, G.H.
Description of an unusual Gram-negative anaerobic rod isolated from periodontal pockets
D.G. AMUNDRUD, I.R. HAMILTON, and G.H. BOWDEN **97**

Bowen, G.D.
The reduction of root colonization by mycorrhizal fungi by mycophagous amoebae
S. CHAKRABORTY, C. THEODOROU, and G.D. BOWEN **295**

Bradshaw-Rouse, J.J.
Sugar composition and serological specificity of *Erwinia carotovora* lipopolysaccharides
S.H. DE BOER, J.J. BRADSHAW-ROUSE, L. SEQUEIRA, and M.E. MCNAUGHTON **583**

Braña, A.F.
Role of substrate mycelium in colony development in *Streptomyces*
CARMEN MÉNDEZ, ALFREDO F. BRAÑA, MANUEL B. MANZANAL, and CARLOS HARDISSON **446**

Ammonium repression of cephalosporin production by *Streptomyces clavuligerus*
ALFREDO F. BRAÑA, SAUL WOLFE, and ARNOLD L. DEMAIN **736**

Erratum: Role of substrate mycelium in colony development in *Streptomyces*
CARMEN MÉNDEZ, ALFREDO F. BRÂNA, MANUEL B. MANZANAL, and CARLOS HARDISSON **1070**

Breittmayer, V.
Tolérance au zinc et au cadmium et accumulation du zinc par les bactéries marines à Gram négatif: relations avec leur type respiratoire
M.J. GAUTHIER, V. BREITTMAYER, R. CLÉMENT, G.N. FLATAU et J.C. AMIARD **793**

Brewer, D.
Antibiotic activity of an isocyanide metabolite of *Trichoderma hamatum* against rumen bacteria
S.N. LISS, D. BREWER, A. TAYLOR, and G.A. JONES **767**

Bridonneau, C.
Efficiency of various bacterial suspensions derived from cecal floras of conventional chickens in reducing the population level of *Salmonella typhimurium* in gnotobiotic mice and chicken intestines
SYLVIE HUDAULT, HILAIRE BEWA, CHANTAL BRIDONNEAU, and PIERRE RAIBAUD **832**

Brook, I.
The role of encapsulation in the pathogenesis of anaerobic gram-positive cocci
I. BROOK and R.I. WALKER **176**

Brose, E.C.
Characterization of incompatibility group HI1 plasmids from *Salmonella typhi* by restriction endonuclease digestion and hybridization of DNA probes for Tn3, Tn9, and Tn10
DIANE E. TAYLOR and ELISA C. BROSE **721**

Brown, R.G.
Effect of 3-*O*-substituted analogues of D-glucose and D-allose on amino acid uptake by *Penicillium* sp.
ROBERT G. BROWN and JOHN M. EMBIL **513**

Bryan, L.E.
Virulence of *Pseudomonas aeruginosa* strains with mechanisms of microbial persistence for β-lactam and aminoglycoside antibiotics in a mouse infection model
L.E. BRYAN, A.J. GODFREY, and T. SCHOLLARDT **377**

Brzykcy, J.
Genetic linkage but independent expression of functional HSV-1 *tk* and mammalian *aprt* genes after cotransfer to L cells
TIMOTHY BLOCK, JOHN BRZYKCY, NICHOLAS HASTIE, and ROBERT G. HUGHES, JR. **311**

Burgdorfer, W.
Spotted fever group rickettsiae in immature and adult ticks (Acari: Ixodidae) from a focus of Rocky Mountain spotted fever in Connecticut
LOUIS A. MAGNARELLI, JOHN F. ANDERSON, WILLY BURGDORFER, ROBERT N. PHILIP, and W. ADRIAN CHAPPELL **1131**

Byrd, J.J.
Bacterial control of *Agromyces ramosus* in soil
JEFFREY J. BYRD, LAWRENCE R. ZEPH, and L.E. CASIDA, JR. **1157**

Cacciari, I.
Regulation of respiratory activity by oxygen in *Arthrobacter fluorescens* ammonium-limited chemostat culture
I. CACCIARI, D. LIPPI, S. IPPOLITI, T. PIETROSANTI, and W. PIETROSANTI **896**

Cady, D.J.
Evidence that the mechanisms of fungitoxicity of 8-quinolinol and its bischelate with copper(II) are different
HERMAN GERSHON, ANTHONY T. GREFIG, and DAVID J. CADY **707**

Caldwell, D.E.
Evaluation of difference imagery for visualizing and quantitating microbial growth
DOUGLAS E. CALDWELL and JAMES J. GERMIDA **35**

Campbell, J., III,
Barotolerant variant of *Streptococcus faecalis* with reduced sensitivity to glucose catabolite repression
JOHN CAMPBELL III, GARY R. BENDER, and ROBERT E. MARQUIS **644**

Casiano-Colon, A.E.
Comparison of fluorescent antibody, bacitracin susceptibility, latex agglutination, coagglutination, and API 20S for identifying group A streptococci
R.J. LESHER and A.E. CASIANO-COLON **335**

Casida, L.E., Jr.
Bacterial control of *Agromyces ramosus* in soil
JEFFREY J. BYRD, LAWRENCE R. ZEPH, and L.E. CASIDA, JR. **1157**

Castignetti, D.
Substrate diversity of an active heterotrophic nitrifier, an *Alcaligenes* sp.
DOMENIC CASTIGNETTI, ROSEMARIE YANONG, and ROBERT GRAMZINSKI **441**

Cavazza, A.
Observations préliminaires sur l'accumulation d'hydrocarbures chez *Candida steatolytica*: relation avec la synthèse des lipides
M. ELISABETTA GUERZONI, PAOLO LAMBERTINI, AGOSTINO CAVAZZA et ROSA MARCHETTI **620**

Ceri, H.
Immunochemical examination of the *Pseudomonas aeruginosa* glycocalyx: a monoclonal antibody which recognizes L-guluronic acid residues of alginic acid
RANDALL T. IRVIN and HOWARD CERI **268**

Chakrabarti, P.
An unsaturated fatty acid mutant of *Aspergillus niger* with partially defective Δ^9-desaturase
PANCHANON CHATTOPADHYAY, SANTU KUMAR BANERJEE, KALYANI SEN, and PARUL CHAKRABARTI **346**

Lipid profiles of *Aspergillus niger* and its unsaturated fatty acid auxotroph, UFA_2
PANCHANON CHATTOPADHYAY, SANTU KUMAR BANERJEE, KALYANI SEN, and PARUL CHAKRABARTI **352**

Chakraborty, S.
The reduction of root colonization by mycorrhizal fungi by mycophagous amoebae
S. CHAKRABORTY, C. THEODOROU, and G.D. BOWEN 295

Chan, Y.-K.
Denitrifications by a diazotrophic *Pseudomonas* species
YIU-KWOK CHAN 1136

Chang, C.J.
Lipid utilization of two flower spiroplasmas and honeybee spiroplasma
C.J. CHANG 173

Chao, E.E.
Lignin degradation by *Phanerochaete chrysosporium* in agitated cultures
IAN D. REID, EMA E. CHAO, and PETER S.S. DAWSON 88

Chappell, W.A.
Spotted fever group rickettsiae in immature and adult ticks (Acari: Ixodidae) from a focus of Rocky Mountain spotted fever in Connecticut
LOUIS A. MAGNARELLI, JOHN F. ANDERSON, WILLY BURGDORFER, ROBERT N. PHILIP, and W. ADRIAN CHAPPELL 1131

Chattopadhyay, P.
An unsaturated fatty acid mutant of *Aspergillus niger* with partially defective Δ^9-desaturase
PANCHANON CHATTOPADHYAY, SANTU KUMAR BANERJEE, KALYANI SEN, and PARUL CHAKRABARTI 346

Lipid profiles of *Aspergillus niger* and its unsaturated fatty acid auxotroph, UFA_2
PANCHANON CHATTOPADHYAY, SANTU KUMAR BANERJEE, KALYANI SEN, and PARUL CHAKRABARTI 352

Chen, T.A.
Monoclonal antibodies against corn stunt spiroplasma
C.P. LIN and T.A. CHEN 900

Chet, I.
Application of enzyme electrophoresis for the identification of isolates in *Trichoderma harzianum*
DANIEL ZAMIR and ILAN CHET 578

Antigenic differences among several *Trichoderma* isolates
RINA BARAK, ARIEH MAOZ, and ILAN CHET 810

Effects of cysteine and structurally related compounds on ochratoxin production by *Aspergillus ochraceus*
N. LISKER, N. PASTER, and I. CHET 973

Chhatwal, G.S.
Binding of α_2-macroglobulin and haptoglobin to *Actinomyces pyogenes*
CHRISTOPH LÄMMLER, GURSHARAN S. CHHATWAL, and HANS BLOBEL 657

Chlumecky, V.
Transformation of hamster embryo cells by chymotrypsin-treated and untreated polyoma virus: characterization of transformants
VERA CHLUMECKY, DONALD C. STRANKS, and JOHN S. COLTER 356

Chu, D.
Isozyme patterns of *Armillaria* intersterility groups occurring in British Columbia
D.J. MORRISON, A.J. THOMSON, D. CHU, F.G. PEET, T.S. SAHOTA, and U. RINK 651

Claps, M.C.
Analysis of xylose operon regulation by Mud (Ap^r, lac) fusion: trans effect of plasmid coded xylose operon
C.A. BATT, M.S. BODIS, S.K. PICATAGGIO, M.C. CLAPS, S. JAMAS, and A.J. SINSKEY 930

Clément, R.
Tolérance au zinc et au cadmium et accumulation du zinc par les bactéries marines à Gram négatif: relations avec leur type respiratoire
M.J. GAUTHIER, V. BREITTMAYER, R. CLÉMENT, G.N. FLATAU et J.C. AMIARD 793

Cody, Y.S.
Mechanisms of plant pathogenesis by *Pseudomonas* species
DENNIS C. GROSS and YVONNE S. CODY 403

Collins-Thompson, D.L.
Characteristics of nitrite reductase activity in *Lactobacillus lactis* TS4
KAREN L. DODDS and DAVID L. COLLINS-THOMPSON 558

Erratum: Characteristics of nitrite reductase activity in *Lactobacillus lactis* TS4
KAREN L. DODDS and DAVID L. COLLINS-THOMPSON 964

Colter, J.S.
Transformation of hamster embryo cells by chymotrypsin-treated and untreated polyoma virus: characterization of transformants
VERA CHLUMECKY, DONALD C. STRANKS, and JOHN S. COLTER 356

Colvin, J.R.
Production of cellulose and soluble polysaccharides by *Acetobacter xylinum*
RODNEY ARTHUR SAVIDGE and J. ROSS COLVIN 1019

Coppola, K.M.
Evaluation of differential media for the identification of *Corynebacterium genitalium* and *Corynebacterium pseudogenitalium* (group JK corynebacteria)
KAREN M. COPPOLA and GEOFFREY FURNESS 32

Deoxyribonucleic acids of *Corynebacterium genitalium* and *Corynebacterium pseudogenitalium*: their genome molecular weights, base ratios, and DNA relatedness with other corynebacteria involved in urinary tract infections
T. IMAEDA, K.M. COPPOLA, and G. FURNESS 1068

Creuzet, N.
Production, purification, and properties of thermostable xylanase from *Clostridium stercorarium*
JEAN-FRANÇOIS BÉRENGER, CHANTAL FRIXON, JACQUELINE BIGLIARDI, and NICOLE CREUZET 635

Cullen, D.
Benomyl-marked populations of *Chaetomium globosum*: survival on apple leaves with and without benomyl and antagonism to the apple scab pathogen, *Venturia inaequalis*
DANIEL CULLEN and JOHN H. ANDREWS 251

Cunningham, J.E.
Maltol, a metabolite of *Scytalidium uredinicola* which inhibits spore germination of *Endocronartium harknessii*, the western gall rust
JAMES E. CUNNINGHAM and MICHAEL A. PICKARD 1051

Currier, W.W.
Response of birdsfoot-trefoil nodulating *Rhizobium* to lectins and trefoil chemotactin
WILLIAM W. CURRIER 587

Daboussi, M.-J.
Loss of a cytoplasmic factor through ethidium bromide and elevated temperature treatments in *Nectria haematococca*
M.-J. DABOUSSI 104

da Costa, M.S.
Factors favouring the accumulation of arabinitol in the yeast *Debaryomyces hansenii*
M. FERNANDA NOBRE and MILTON S. DA COSTA 467

The accumulation of polyols by the yeast *Debaryomyces hansenii* in response to water stress
M. FERNANDA NOBRE and MILTON S. DA COSTA 1061

Dahling, D.R.
Erratum: Comparison of commercial beef extracts and similar materials for recovering viruses from environmental samples
CHRISTON J. HURST, DANIEL R. DAHLING, ROBERT S. SAFFERMAN, and TAMARA GOYKE 502

Davis, J.D.
Isolation and partial chemical analysis of firmly bound exopolysaccharide from adherent cells of a freshwater sediment bacterium
R.M. PLATT, G.G. GEESEY, J.D. DAVIS, and D.C. WHITE 675

Dawson, P.S.S.
Lignin degradation by *Phanerochaete chrysosporium* in agitated cultures
IAN D. REID, EMA E. CHAO, and PETER S.S. DAWSON 88

Growth, cell cultivation, cell metabolism, and the cell cycle of *Candida utilis* as explored by continuous phased culture
P.S.S. DAWSON 183

De Boer, S.H.
Sugar composition and serological specificity of *Erwinia carotovora* lipopolysaccharides
S.H. DE BOER, J.J. BRADSHAW-ROUSE, L. SEQUEIRA, and M.E. MCNAUGHTON 583

Decker, G.
Cellobiose phosphorylase (EC 2.4.1.20) of *Cellulomonas* sp.: investigations on its localization
KARL-L. SCHIMZ and GABY DECKER 751

Dekleva, M.L.
Nutrient effects on anthracycline production by *Streptomyces peucetius* in a defined medium
MICHAEL L. DEKLEVA, JEFFREY A. TITUS, and WILLIAM R. STROHL 287

de la Hoz, L.
Effect of growth temperature on lipid composition of *Streptococcus faecium*
J.A. ORDÓÑEZ, L. DE LA HOZ, J.I. AZCONA, and B. SANZ 361

Delfgou-Van Asch, E.H.M.
Comparative study of membrane filtration and enrichment media for the isolation and enumeration of *Pseudomonas aeruginosa* from sewage, surface water, and swimming pools
A.H. HAVELAAR, M. DURING, and E.H.M. DELFGOU-VAN ASCH 686

de los Reyes Gavilàn, C.-R.G.
Restriction-modification systems in *Streptomyces antibioticus*
JESÚS SÁNCHEZ, COVADONGA BARBÉS, ANGELES HERNANDEZ, CLARA-ROSA G. DE LOS REYES GAVILÁN, and CARLOS HARDISSON 942

Demain, A.L.
Ammonium repression of cephalosporin production by *Streptomyces clavuligerus*
ALFREDO F. BRAÑA, SAUL WOLFE, and ARNOLD L. DEMAIN 736

Deschamps, A.M.
Évaluation de la dégradation de deux types de tanin condensé par des bactéries isolées d'écorces en décomposition
A.M. DESCHAMPS 499

Deutch, C.E.
Identification of a *trans*-dominant mutation affecting proline dehydrogenase in *Escherichia coli*
CHARLES E. DEUTCH, JOHN M. O'BRIEN, JR., and MICHAEL S. VANNIEUWENHZE 988

Dick, H.
Swarmer cell differentiation of *Proteus mirabilis* in fluid media
H. DICK, R.G.E. MURRAY, and S. WALMSLEY 1041

Diedrich, D.L.
Extracellular polysaccharide production by *Klebsiella pneumoniae* and its relationship to virulence
PHILIP DOMENICO, DANA L. DIEDRICH, and DAVID C. STRAUS 472

Dion, P.
Octopine, nopaline, and octopinic acid utilization in *Pseudomonas*
G. ROSSIGNOL and P. DION 68

Dodds, K.L.
Characteristics of nitrite reductase activity in *Lactobacillus lactis* TS4
KAREN L. DODDS and DAVID L. COLLINS-THOMPSON 558

Erratum: Characteristics of nitrite reductase activity in *Lactobacillus lactis* TS4
KAREN L. DODDS and DAVID L. COLLINS-THOMPSON 964

Dolfing, J.
Chemical and bacteriological composition of granular methanogenic sludge
J. DOLFING, A. GRIFFIOEN, A.R.W. VAN NEERVEN, and L.P.T.M. ZEVENHUIZEN 744

Domenico, P.
Extracellular polysaccharide production by *Klebsiella pneumoniae* and its relationship to virulence
PHILIP DOMENICO, DANA L. DIEDRICH, and DAVID C. STRAUS 472

Domer, J.E.
Chemical and enzymatic variation in the cell walls of pathogenic *Candida* species
FRANK L. LYON and JUDITH E. DOMER 590

Doyle, R.J.
Discontinuity of charge on cell wall poles of *Bacillus subtilis*
E.M. SONNENFELD, T.J. BEVERIDGE, and R.J. DOYLE 875

Trypsin-susceptible cell surface characteristics of *Streptococcus sanguis*
J. DAVID OAKLEY, K. GRANT TAYLOR, and R. JENNINGS DOYLE 1103

Droniuk, R.
Isolation and characterization of a *Saccharomycopsis lipolytica* mutant showing increased production of citric acid from canola oil
DAVID W. GOOD, RANDAL DRONIUK, G. ROSS LAWFORD, and JARED E. FEIN 436

Duong, T.P.
Nitrogen fixation by naturally occurring duckweed–cyanobacterial associations
TRAN PHUOC DUONG and JAMES M. TIEDJE 327

During, M.
Model studies on a membrane filtration method for the enumeration of coagulase-positive staphylococci in swimming-pool water using rabbit plasma – bovine fibrinogen agar
A.H. HAVELAAR and M. DURING 331

Comparative study of membrane filtration and enrichment media for the isolation and enumeration of *Pseudomonas aeruginosa* from sewage, surface water, and swimming pools
A.H. HAVELAAR, M. DURING, and E.H.M. DELFGOU-VAN ASCH 686

Dwinell, L.D.
Evaluation of *Arthrobacter* sp. for biological control of the pitch canker fungus (*Fusarium moniliforme* var. *subglutinans*) on slash pines
JANE BARROWS-BROADDUS, L.D. DWINELL, and T.J. KERR 888

Dyer, J.K.
Purification and chemical characterization of an exopolysaccharide isolated from *Capnocytophaga ochracea*
J.K. DYER and R.W. BOLTON 1

Embil, J.M.
Effect of 3-*O*-substituted analogues of D-glucose and D-allose on amino acid uptake by *Penicillium* sp.
ROBERT G. BROWN and JOHN M. EMBIL 513

Emeis, C.C.
Fluorometric determination of the total DNA content of different yeast species using 4′,6-diamidino-2-phenyl-indol-dihydrochloride
H.G. LEUSCH, M. HOFFMANN, and C.C. EMEIS 1164

Enríquez, A.
The localization and activity of *Cellulomonas* xylanase on sugarcane bagasse pith
H. RODRÍGUEZ, A. ENRÍQUEZ, and O. VOLFOVÁ 754

Eraso, A.J.
A thiol-activated hemolysin in Gram-negative bacteria
INÉS ALBESA, LUCILA ISABEL BARBERIS, MARÍA CRISTINA PAJARO, MARÍA CECILIA FARNOCHI, and ALBERTO JORGE ERASO 297

Erdos, G.W.
Immuno-electron microscopic identification of *Methanosarcina* spp. in anaerobic digester fluid
RALPH W. ROBINSON and GREGORY W. ERDOS 839

Eschenbruch, R.
Effect of phenolic compounds, ethyl alcohol, and sodium metabisulphite on the lytic activity of phage PL-1 on a *Lactobacillus casei* S strain
A. Lee, R. Eschenbruch, and J. Waller **873**

Evans, C.T.
Partial purification and properties of pyruvate kinase and its regulatory role during lipid accumulation by the oleaginous yeast *Rhodosporidium toruloides* CBS 14
Christopher Thomas Evans and Colin Ratledge **479**

The role of the mitochondrial NAD^+:isocitrate dehydrogenase in lipid accumulation by the oleaginous yeast *Rhodosporidium toruloides* CBS 14
Christopher Thomas Evans and Colin Ratledge **845**

Possible regulatory roles of ATP:citrate lyase, malic enzyme, and AMP deaminase in lipid accumulation by *Rhodosporidium toruloides* CBS 14
Christopher Thomas Evans and Colin Ratledge **1000**

Farber, J.M.
Improved recovery of fecal coliforms from the Ottawa River by membrane filters in the presence of food debris
Jeffrey M. Farber, Anthony N. Sharpe, and Miloslav Kalab **16**

Farnochi, M.C.
A thiol-activated hemolysin in Gram-negative bacteria
Inés Albesa, Lucila Isabel Barberis, María Cristina Pajaro, María Cecilia Farnochi, and Alberto Jorge Eraso **297**

Fein, J.E.
Isolation and characterization of a *Saccharomycopsis lipolytica* mutant showing increased production of citric acid from canola oil
David W. Good, Randal Droniuk, G. Ross Lawford, and Jared E. Fein **436**

Fernández, G.S.
Isolation de micro-organismes du genre *Listeria* à partir de lait cru destiné à la consommation humaine
Lucas Domínguez Rodriguez, Jose F. Fernández Garayzabal, Jose A. Vazquez Boland, Elias Rodriguez Ferri et Guillermo Suarez Fernández **938**

Ferri, E.R.
Isolation de micro-organismes du genre *Listeria* à partir de lait cru destiné à la consommation humaine
Lucas Domínguez Rodriguez, Jose F. Fernández Garayzabal, Jose A. Vazquez Boland, Elias Rodriguez Ferri et Guillermo Suarez Fernández **938**

Findlay, R.H.
Quantitative determination of microbial activity and community nutritional status in estuarine sediments: evidence for a disturbance artifact
Robert H. Findlay, Peter C. Pollard, David J.W. Moriarty, and David C. White **493**

Determination of phospholipid ester-linked fatty acids and poly β-hydroxybutyrate for the estimation of bacterial biomass and activity in the rhizosphere of the rape plant *Brassica napus* (L.)
Anders Tunlid, Bruce H. Baird, Melanie B. Trexler, Stefan Olsson, Robert H. Findlay, Goran Odham, and David C. White **1113**

Fitzgerald, T.J.
Detection and functional characterization of early appearing antibodies in rabbits with experimental syphilis
Marianne Rice and T.J. Fitzgerald **62**

Experimental congenital syphilis in rabbits
Thomas J. Fitzgerald **757**

Immune immobilization of *Treponema pallidum*: antibody and complement interactions revisited
Marianne Rice and T.J. Fitzgerald **1147**

Immobilization and neutralization of *Treponema pallidum* attached to cultured mammalian cells
Thomas Fitzgerald **1152**

Flatau, G.N.
Tolérance au zinc et au cadmium et accumulation du zinc par les bactéries marines à Gram négatif: relations avec leur type respiratoire
M.J. Gauthier, V. Breittmayer, R. Clément, G.N. Flatau et J.C. Amiard **793**

Fogarty, W.M.
Separation and characterization of an α-glucosidase and maltase from *Bacillus amyloliquefaciens*
William M. Fogarty, Catherine T. Kelly, and Sunil K. Kadam **670**

Fradkin, A.
Properties of bacteria isolated from surfaces of conidia of *Cochliobolus sativus* incubated in soil
A. Fradkin and Z.A. Patrick **411**

Frixon, C.
Production, purification, and properties of thermostable xylanase from *Clostridium stercorarium*
Jean-François Bérenger, Chantal Frixon, Jacqueline Bigliardi, and Nicole Creuzet **635**

Furness, G.
Evaluation of differential media for the identification of *Corynebacterium genitalium* and *Corynebacterium pseudogenitalium* (group JK corynebacteria)
Karen M. Coppola and Geoffrey Furness **32**

Deoxyribonucleic acids of *Corynebacterium genitalium* and *Corynebacterium pseudogenitalium*: their genome molecular weights, base ratios, and DNA relatedness with other corynebacteria involved in urinary tract infections
T. Imaeda, K.M. Coppola, and G. Furness **1068**

Furter, R.
Cellular and chitosomal lipids of *Agaricus bisporus* and *Mucor rouxii*
John D. Weete, Rolf Furter, Edgar Hänseler, and Dora M. Rast **1120**

Furukawa, K.
Genetic relationship between pUB110 and antibiotic-resistant plasmids obtained from thermophilic bacilli
Takayuki Hoshino, Takayuki Ikeda, Kensuke Furukawa, and Noboru Tomizuka **614**

Gacto, M.
Evidence for regulatory trehalase activity in *Candida utilis*
J.C. Arguelles and M. Gacto **529**

Gagné, S.
Inhibition de champignons phytopathogènes par des bactéries isolées du sol et de la rhizosphère de légumineuses
S. Gagné, H. Antoun et C. Richard **856**

Galper, S.
Scanning electron microscopy of the ontogeny of *Ampelomyces quisqualis* pycnidia
S. Galper, A. Sztejnberg, and N. Lisker **961**

Garayzabal, J.F.F.
Isolation de micro-organismes du genre *Listeria* à partir de lait cru destiné à la consommation humaine
Lucas Domínguez Rodriguez, Jose F. Fernández Garayzabal, Jose A. Vazquez Boland, Elias Rodriguez Ferri et Guillermo Suarez Fernández **938**

Garcia-Cervigon, A.
Étude de l'influence du rapport Mg/Ca sur la formation de carbonate par des bactéries telluriques
M.A. Rivadeneyra, A. Ramos-Cormenzana et A. Garcia-Cervigon **229**

Garcia-Toledo, A.
Training of *Rhizopus stolonifer* and *Cunninghamella blakesleeana* to copper: cotolerance to cadmium, cobalt, nickel, and lead
A. Garcia-Toledo, H. Babich, and G. Stotzky **485**

Gauthier, M.J.
Tolérance au zinc et au cadmium et accumulation du zinc par les bactéries marines à Gram négatif: relations avec leur type respiratoire
M.J. Gauthier, V. Breittmayer, R. Clément, G.N. Flatau et J.C. Amiard 793

Geesey, G.G.
Isolation and partial chemical analysis of firmly bound exopolysaccharide from adherent cells of a freshwater sediment bacterium
R.M. Platt, G.G. Geesey, J.D. Davis, and D.C. White 675

Germida, J.J.
Evaluation of difference imagery for visualizing and quantitating microbial growth
Douglas E. Caldwell and James J. Germida 35

Gershon, H.
Evidence that the mechanisms of fungitoxicity of 8-quinolinol and its bischelate with copper(II) are different
Herman Gershon, Anthony T. Grefig, and David J. Cady 707

Gibson, J.
Spores, germination, and germ tubes of vesicular–arbuscular mycorrhizal fungi
J.O. Siqueira, D.M. Sylvia, J. Gibson, and D.H. Hubbell 965

Godfrey, A.J.
Virulence of *Pseudomonas aeruginosa* strains with mechanisms of microbial persistence for β-lactam and aminoglycoside antibiotics in a mouse infection model
L.E. Bryan, A.J. Godfrey, and T. Schollardt 377

Good, D.W.
Isolation and characterization of a *Saccharomycopsis lipolytica* mutant showing increased production of citric acid from canola oil
David W. Good, Randal Droniuk, G. Ross Lawford, and Jared E. Fein 436

Gordon, A.S.
The toxicity of copper to the marine bacterium *Vibrio alginolyticus*
Donald R. Schreiber, Andrew S. Gordon, and Frank J. Millero 83

Goulet, J.
Levains lactiques: corrélation entre les dénombrements sur gélose et l'ATP cellulaire
R. Roy et J. Goulet 555

Gowda, T.K.S.
Hydrogen-supported N_2 fixation of *Pseudomonas* sp. and *Azospirillum lipoferum* under free-living conditions and in association with rice seedlings
T.K.S. Gowda and I. Watanabe 317

Stimulating effect of hydrogen on N_2 fixation in association with field-grown wetland rice
T.K.S. Gowda and I. Watanabe 503

Goyke, T.
Erratum: Comparison of commercial beef extracts and similar materials for recovering viruses from environmental samples
Christon J. Hurst, Daniel R. Dahling, Robert S. Safferman, and Tamara Goyke 502

Gramzinski, R.
Substrate diversity of an active heterotrophic nitrifier, an *Alcaligenes* sp.
Domenic Castignetti, Rosemarie Yanong, and Robert Gramzinski 441

Grefig, A.T.
Evidence that the mechanisms of fungitoxicity of 8-quinolinol and its bischelate with copper(II) are different
Herman Gershon, Anthony T. Grefig, and David J. Cady 707

Grenier, D.
Detection of collagenase activity in oral bacteria
D. Mayrand and D. Grenier 134

Cytotoxic effects of culture supernatants of oral bacteria and various organic acids on Vero cells
Daniel Grenier and Denis Mayrand 302

Grenville, D.J.
Sclerotia as viable sources of mycelia for the establishment of ectomycorrhizae
D.J. Grenville, Y. Piché, and R.L. Peterson 1085

Griffioen, A.
Chemical and bacteriological composition of granular methanogenic sludge
J. Dolfing, A. Griffioen, A.R.W. van Neerven, and L.P.T.M. Zevenhuizen 744

Gross, D.C.
Mechanisms of plant pathogenesis by *Pseudomonas* species
Dennis C. Gross and Yvonne S. Cody 403

Guerry, P.
Expression of *Campylobacter* genes for proline biosynthesis in *Escherichia coli*
Eileen C. Lee, Richard I. Walker, and Patricia Guerry 1064

Guerzoni, M.E.
Observations préliminaires sur l'accumulation d'hydrocarbures chez *Candida steatolytica*: relation avec la synthèse des lipides
M. Elisabetta Guerzoni, Paolo Lambertini, Agostino Cavazza et Rosa Marchetti 620

Guo, Y.
Histopathological evidence for protective immunity induced by sonicated *Salmonella* vaccine
H.S. Hsu, I. Nakoneczna, and Yan-nie Guo 54

Guss, S.P.
Determination of mercury and organomercurial resistance in obligate anaerobic bacteria
James T. Rudrik, Roger E. Bawdon, and Stephen P. Guss 276

Hagler, A.N.
DNA relatedness among aquatic yeasts of the genus *Metschnikowia* and proposal of the species *Metschnikowia australis* comb. nov.
Leda Cristina Mendonça-Hagler, Allen N. Hagler, H.J. Phaff, and Joanne Tredick 905

Hamilton, I.R.
Description of an unusual Gram-negative anaerobic rod isolated from periodontal pockets
D.G. Amundrud, I.R. Hamilton, and G.H. Bowden 97

Hancock, R.E.W.
Characterization of two surface-localized antigenic sites on porin protein F of *Pseudomonas aeruginosa*
Lucy M. Mutharia and Robert E.W. Hancock 381

Hänseler, E.
Cellular and chitosomal lipids of *Agaricus bisporus* and *Mucor rouxii*
John D. Weete, Rolf Furter, Edgar Hänseler, and Dora M. Rast 1120

Hardisson, C.
Role of substrate mycelium in colony development in *Streptomyces*
Carmen Méndez, Alfredo F. Braña, Manuel B. Manzanal, and Carlos Hardisson 446

Restriction-modification systems in *Streptomyces antibioticus*
Jesús Sánchez, Covadonga Barbès, Angeles Hernandez, Clara-Rosa G. de los Reyes Gavilàn, and Carlos Hardisson 942

Erratum: Role of substrate mycelium in colony development in *Streptomyces*
Carmen Méndez, Alfredo F. Braña, Manuel B. Manzanal, and Carlos Hardisson 1070

Hartley, D.L.
Location of cellulolytic enzyme activity in the marine fungus *Trichocladium achrasporum*
M.J. MacDonald, D.L. Hartley, and M.K. Speedie 145

Hastie, N.
Genetic linkage but independent expression of functional HSV-1 *tk* and mammalian *aprt* genes after cotransfer to L cells
TIMOTHY BLOCK, JOHN BRZYKCY, NICHOLAS HASTIE, and ROBERT G. HUGHES, JR. **311**

Havelaar, A.H.
Model studies on a membrane filtration method for the enumeration of coagulase-positive staphylococci in swimming-pool water using rabbit plasma – bovine fibrinogen agar
A.H. HAVELAAR and M. DURING **331**

Comparative study of membrane filtration and enrichment media for the isolation and enumeration of *Pseudomonas aeruginosa* from sewage, surface water, and swimming pools
A.H. HAVELAAR, M. DURING, and E.H.M. DELFGOU-VAN ASCH **686**

Heiniger, U.
Extracellular enzymes of *Phytophthora infestans*: endo-cellulase, β-glucosidases, and 1,3,-β-glucanases
JAKOB BODENMANN, URSULA HEINIGER, and HANS R. HOHL **75**

Heinrich, D.
Chemotactic attraction of *Azospirillum lipoferum* by wheat roots and characterization of some attractants
D. HEINRICH and D. HESS **26**

Hendrix, J.W.
Relationship between the ectomycorrhizal fungus *Pisolithus tinctorius* associated with loblolly pine and acid-generating *Thiobacillus* spp. on an acidic strip mine site
JAMES W. HENDRIX, CATHY STEVENS HUNT, and DALE M. MARONEK **878**

Henis, Y.
Involvement of fungi in the increase of free fatty acids in stored soybeans
N. LISKER, A. BEN-EFRAIM, and Y. HENIS **799**

Changes in root morphology of wheat caused by *Azospirillum* inoculation
YORAM KAPULNIK, YAACOV OKON, and YIGEL HENIS **881**

Henry, C.E.
Modification of the outer surface of *Erwinia carotovora* ssp. *atroseptica* by the phytoalexin rishitin
W.M. ROBERTSON, G.D. LYON, and C.E. HENRY **1108**

Hernandez, A.
Restriction-modification systems in *Streptomyces antibioticus*
JESÚS SÀNCHEZ, COVADONGA BARBÈS, ANGELES HERNANDEZ, CLARA-ROSA G. DE LOS REYES GAVILÀN, and CARLOS HARDISSON **942**

Hess, D.
Chemotactic attraction of *Azospirillum lipoferum* by wheat roots and characterization of some attractants
D. HEINRICH and D. HESS **26**

Hipkiss, A.R.
Growth of *Vibrio costicola* and other moderate halophiles in a chemically defined minimal medium
MASAHIRO KAMEKURA, REBECCA WALLACE, ALAN R. HIPKISS, and DONN J. KUSHNER **870**

Hoffmann, M.
Fluorometric determination of the total DNA content of different yeast species using 4′,6-diamidino-2-phenyl-indol-dihydrochloride
H.G. LEUSCH, M. HOFFMANN, and C.C. EMEIS **1164**

Hohl, H.R.
Extracellular enzymes of *Phytophthora infestans*: endo-cellulase, β-glucosidases, and 1,3,-β-glucanases
JAKOB BODENMANN, URSULA HEINIGER, and HANS R. HOHL **75**

Holder, I.A.
Erratum: Experimental studies of the pathogenesis of infections owing to *Pseudomonas aeruginosa*: elastase, an IgG protease
IAN ALAN HOLDER and ROBERT WHEELER **91**

The pathogenesis of infections owing to *Pseudomonas aeruginosa* using the burned mouse model: experimental studies from the Shriners Burns Institute, Cincinnati
IAN ALAN HOLDER **393**

Holt, S.C.
Isolation and characterization of the peptidoglycans from selected Gram-positive and Gram-negative periodontal pathogens
M.R. BARNARD and S.C. HOLT **154**

Effects of peptidoglycans from periodontal pathogens on selected biological activities of CD-1 murine peritoneal macrophages
M. BARNARD and S.C. HOLT **161**

Characteristics of the outer membrane of selected oral *Bacteroides* species
G.D. WILLIAMS and S.C. HOLT **238**

Honda, H.
Two types of xylanases of alkalophilic *Bacillus* sp. No. C-125
H. HONDA, T. KUDO, Y. IKURA, and K. HORIKOSHI **538**

Horikoshi, K.
Two types of xylanases of alkalophilic *Bacillus* sp. No. C-125
H. HONDA, T. KUDO, Y. IKURA, and K. HORIKOSHI **538**

Horn, B.W.
Association of *Candida guilliermondii* with amylolytic filamentous fungi on preharvest corn
BRUCE W. HORN **19**

Horne, D.
Factors affecting sensitivity of group B streptococci to an exogenous murein hydrolase
DIANE HORNE and ALEXANDER TOMASZ **417**

Horton, H.
Evaluation of a modified enzyme immunoassay for *Neisseria gonorrhoeae* in high- and low-risk females
MICHAEL R. SKEELS, BESSIE MATSUDA, HENRY HORTON, JAMES SAMPSON, GARY A. SAWYER, and JUANITA MITCHELL **893**

Hoshino, T.
Isolation and characterization of antibiotic-resistance plasmids in thermophilic bacilli
TAKAYUKI HOSHINO, TAKAYUKI IKEDA, HIROYUKI NARUSHIMA, and NOBORU TOMIZUKA **339**

Genetic relationship between pUB110 and antibiotic-resistant plasmids obtained from thermophilic bacilli
TAKAYUKI HOSHINO, TAKAYUKI IKEDA, KENSUKE FURUKAWA, and NOBORU TOMIZUKA **614**

Hsu, H.S.
Histopathological evidence for protective immunity induced by sonicated *Salmonella* vaccine
H.S. HSU, I. NAKONECZNA, and YAN-NIE GUO **54**

Hubbard, M.J.
Morphological studies of *N*-acetylglucosamine induced germ tube formation by *Candida albicans*
MICHAEL J. HUBBARD, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD **696**

Hubbell, D.H.
Spores, germination, and germ tubes of vesicular–arbuscular mycorrhizal fungi
J.O. SIQUEIRA, D.M. SYLVIA, J. GIBSON, and D.H. HUBBELL **965**

Hudault, S.
Efficiency of various bacterial suspensions derived from cecal floras of conventional chickens in reducing the population level of *Salmonella typhimurium* in gnotobiotic mice and chicken intestines
SYLVIE HUDAULT, HILAIRE BEWA, CHANTAL BRIDONNEAU, and PIERRE RAIBAUD **832**

Hughes, R.G., Jr.
Genetic linkage but independent expression of functional HSV-1 *tk* and mammalian *aprt* genes after cotransfer to L cells
TIMOTHY BLOCK, JOHN BRZYKCY, NICHOLAS HASTIE, and ROBERT G. HUGHES, JR. 311

Hunt, C.S.
Relationship between the ectomycorrhizal fungus *Pisolithus tinctorius* associated with loblolly pine and acid-generating *Thiobacillus* spp. on an acidic strip mine site
JAMES W. HENDRIX, CATHY STEVENS HUNT, and DALE M. MARONEK 878

Hurst, C.J.
Erratum: Comparison of commercial beef extracts and similar materials for recovering viruses from environmental samples
CHRISTON J. HURST, DANIEL R. DAHLING, ROBERT S. SAFFERMAN, and TAMARA GOYKE 502

Iglewski, B.H.
The contribution of exoproducts to virulence of *Pseudomonas aeruginosa*
THALIA I. NICAS and BARBARA H. IGLEWSKI 387

Ijaz, M.K.
Effect of relative humidity, atmospheric temperature, and suspending medium on the airborne survival of human rotavirus
M. KHALID IJAZ, SYED A. SATTAR, C. MARGARET JOHNSON-LUSSENBURG, V. SUSAN SPRINGTHORPE, and RAMA C. NAIR 681

Effect of relative humidity on the airborne survival of rhinovirus-14
YASMIN G. KARIM, M. KHALID IJAZ, SYED A. SATTAR, and C. MARGARET JOHNSON-LUSSENBURG 1058

Ikeda, T.
Isolation and characterization of antibiotic-resistance plasmids in thermophilic bacilli
TAKAYUKI HOSHINO, TAKAYUKI IKEDA, HIROYUKI NARUSHIMA, and NOBORU TOMIZUKA 339

Genetic relationship between pUB110 and antibiotic-resistant plasmids obtained from thermophilic bacilli
TAKAYUKI HOSHINO, TAKAYUKI IKEDA, KENSUKE FURUKAWA, and NOBORU TOMIZUKA 614

Ikura, Y.
Two types of xylanases of alkalophilic *Bacillus* sp. No. C-125
H. HONDA, T. KUDO, Y. IKURA, and K. HORIKOSHI 538

Imada, C.
Purification and characterization of the protease inhibitor "monastatin" from a marine *Alteromonas* sp. with reference to inhibition of the protease produced by a bacterium pathogenic to fish
CHIAKI IMADA, MASACHIKA MAEDA, and NOBUO TAGA 1089

Imaeda, T.
Deoxyribonucleic acids of *Corynebacterium genitalium* and *Corynebacterium pseudogenitalium*: their genome molecular weights, base ratios, and DNA relatedness with other corynebacteria involved in urinary tract infections
T. IMAEDA, K.M. COPPOLA, and G. FURNESS 1068

Ippoliti, S.
Regulation of respiratory activity by oxygen in *Arthrobacter fluorescens* ammonium-limited chemostat culture
I. CACCIARI, D. LIPPI, S. IPPOLITI, T. PIETROSANTI, and W. PIETROSANTI 896

Irvin, R.T.
Immunochemical examination of the *Pseudomonas aeruginosa* glycocalyx: a monoclonal antibody which recognizes L-guluronic acid residues of alginic acid
RANDALL T. IRVIN and HOWARD CERI 268

Adhesion of *Pseudomonas aeruginosa* to human buccal epithelial cells: evidence for two classes of receptors
DAVID W. MCEACHRAN and RANDALL T. IRVIN 563

Jacobsen, T.
Preparation of protoplasts from mycelium and arthroconidia of *Geotrichum candidum*
T. JACOBSEN, B. JENSEN, J. OLSEN, and K. ALLERMANN 93

Jain, D.K.
Characterization of a substance produced by *Azospirillum* which causes branching of wheat root hairs
DEVENDER K. JAIN and DAVID G. PATRIQUIN 206

Jamas, S.
Analysis of xylose operon regulation by Mud (Ap^r, lac) fusion: trans effect of plasmid coded xylose operon
C.A. BATT, M.S. BODIS, S.K. PICATAGGIO, M.C. CLAPS, S. JAMAS, and A.J. SINSKEY 930

Jarrell, K.F.
Importance of sodium to the bioenergetic properties of *Methanococcus voltae*
KEN F. JARRELL and G.D. SPROTT 851

Jeffrey, W.H.
The effect of surfactants on the attachment of estuarine and marine bacteria to surfaces
JOHN H. PAUL and WADE H. JEFFREY 224

Jensen, B.
Preparation of protoplasts from mycelium and arthroconidia of *Geotrichum candidum*
T. JACOBSEN, B. JENSEN, J. OLSEN, and K. ALLERMANN 93

Johnson, J.L.
DNA homology studies of the catalase-negative campylobacters and "*Campylobacter fecalis*," an emended description of *Campylobacter sputorum*, and proposal of the neotype strain of *Campylobacter sputorum*
R. MARTIN ROOP II, ROBERT M. SMIBERT, JOHN L. JOHNSON, and NOEL R. KRIEG 823

Johnson-Lussenburg, C.M.
Effect of relative humidity, atmospheric temperature, and suspending medium on the airborne survival of human rotavirus
M. KHALID IJAZ, SYED A. SATTAR, C. MARGARET JOHNSON-LUSSENBURG, V. SUSAN SPRINGTHORPE, and RAMA C. NAIR 681

Effect of relative humidity on the airborne survival of rhinovirus-14
YASMIN G. KARIM, M. KHALID IJAZ, SYED A. SATTAR, and C. MARGARET JOHNSON-LUSSENBURG 1058

Johnston, G.C.
Ultrastructure of *Saccharomyces cerevisiae* strain AG1-7 and its responses to changes in environment
J.H.M. WILLISON and G.C. JOHNSTON 109

Jones, G.A.
Antibiotic activity of an isocyanide metabolite of *Trichoderma hamatum* against rumen bacteria
S.N. LISS, D. BREWER, A. TAYLOR, and G.A. JONES 767

Kadam, S.K.
Separation and characterization of an α-glucosidase and maltase from *Bacillus amyloliquefaciens*
WILLIAM M. FOGARTY, CATHERINE T. KELLY, and SUNIL K. KADAM 670

Temperature-sensitive mutants in *rfaI* and *rfaJ*, genes for galactosyltransferase I and glucosyltransferase II, for synthesis of lipopolysaccharide in *Salmonella typhimurium*
SUNIL K. KADAM, MARK S. PEPPLER, and KENNETH E. SANDERSON 861

Kalab, M.
Improved recovery of fecal coliforms from the Ottawa River by membrane filters in the presence of food debris
JEFFREY M. FARBER, ANTHONY N. SHARPE, and MILOSLAV KALAB 16

Kamekura, M.
Growth of *Vibrio costicola* and other moderate halophiles in a chemically defined minimal medium
MASAHIRO KAMEKURA, REBECCA WALLACE, ALAN R. HIPKISS, and DONN J. KUSHNER 870

Kapulnik, Y.
Changes in root morphology of wheat caused by *Azospirillum* inoculation
YORAM KAPULNIK, YAACOV OKON, and YIGEL HENIS **881**

Karim, Y.G.
Effect of relative humidity on the airborne survival of rhinovirus-14
YASMIN G. KARIM, M. KHALID IJAZ, SYED A. SATTAR, and C. MARGARET JOHNSON-LUSSENBURG **1058**

Kelln, R.A.
Isolation and characterization of pyrimidine mutants of *Salmonella typhimurium* altered in expression of *pyrC*, *pyrD*, and *pyrE*
ROD A. KELLN, J. NEUHARD, and LISBETH STAUNING **981**

Kelly, C.T.
Separation and characterization of an α-glucosidase and maltase from *Bacillus amyloliquefaciens*
WILLIAM M. FOGARTY, CATHERINE T. KELLY, and SUNIL K. KADAM **670**

Kerr, T.J.
Evaluation of *Arthrobacter* sp. for biological control of the pitch canker fungus (*Fusarium moniliforme* var. *subglutinans*) on slash pines
JANE BARROWS-BROADDUS, L.D. DWINELL, and T.J. KERR **888**

Klacik, M.A.
Development of a cell wash buffer that minimizes nucleic acid loss from *Clostridium perfringens* 10543 A
HANS P. BLASCHEK and MICHAEL A. KLACIK **575**

Kloepper, J.W.
Chemotaxis of fluorescent *Pseudomonas* spp. to soybean seed exudates *in vitro* and in soil
F.M. SCHER, J.W. KLOEPPER, and C.A. SINGLETON **570**

Measuring the spermosphere colonizing capacity (spermosphere competence) of bacterial inoculants
J.W. KLOEPPER, F.M. SCHER, M. LALIBERTÉ, and I. ZALESKA **926**

Kniseley, R.N.
Airborne microorganisms in a municipal solid waste recovery system
LINDA L. LEMBKE and RICHARD N. KNISELEY **198**

Koch, A.L.
How bacteria grow and divide in spite of internal hydrostatic pressure
ARTHUR L. KOCH **1071**

Kongshavn, P.A.L.
An ultrastructural investigation of *Leishmania donovani* infection in genetically resistant and susceptible mouse strains
PETER R. WELDON and PATRICIA A.L. KONGSHAVN **256**

Koval, S.F.
Effect of calcium on the *in vivo* assembly of the surface protein of *Aquaspirillum serpens* VHA
S.F. KOVAL and R.G.E. MURRAY **261**

Krieg, N.R.
DNA homology studies of the catalase-negative campylobacters and "*Campylobacter fecalis*," an emended description of *Campylobacter sputorum*, and proposal of the neotype strain of *Campylobacter sputorum*
R. MARTIN ROOP II, ROBERT M. SMIBERT, JOHN L. JOHNSON, and NOEL R. KRIEG **823**

Krikelis, V.
Seasonal distribution of enteroviruses and adenoviruses in domestic sewage
VASSILIS KRIKELIS, NIKI SPYROU, PANAYOTIS MARKOULATOS, and CHARLES SERIE **24**

Kubicek-Pranz, E.M.
Formation of D-amino-acid oxidase in the yeast *Trigonopsis variabilis*
EVA M. KUBICEK-PRANZ and M. RÖHR **625**

Kudo, T.
Two types of xylanases of alkalophilic *Bacillus* sp. No. C-125
H. HONDA, T. KUDO, Y. IKURA, and K. HORIKOSHI **538**

Kulifaj, M.
Distribution of sterols in fungi. II. Brassicasterol in *Tuber* and *Terfezia* species
J.D. WEETE, M. KULIFAJ, C. MONTANT, W.R. NES, and M. SANCHOLLE **1127**

Kushner, D.J.
Growth of *Vibrio costicola* and other moderate halophiles in a chemically defined minimal medium
MASAHIRO KAMEKURA, REBECCA WALLACE, ALAN R. HIPKISS, and DONN J. KUSHNER **870**

Labelle, J.L.
Xylitol as a carbon source for growth and ethanol production by *Pachysolen tannophilus*
LEONARD G. NEIRINCK, C.S. TSAI, JOHN L. LABELLE, and HENRY SCHNEIDER **451**

Labows, J.N., Jr.
Volatiles of *Pseudomonas aeruginosa* and related species by automated headspace concentration – gas chromatography
JAMES M. ZECHMAN and JOHN N. LABOWS, JR. **232**

Lachance, P.
Production of RNA-dependent haemolysin by *Haemophilus pleuropneumoniae*
P.G. MARTIN, P. LACHANCE, and D.F. NIVEN **456**

Laliberté, M.
Measuring the spermosphere colonizing capacity (spermosphere competence) of bacterial inoculants
J.W. KLOEPPER, F.M. SCHER, M. LALIBERTÉ, and I. ZALESKA **926**

Lambertini, P.
Observations préliminaires sur l'accumulation d'hydrocarbures chez *Candida steatolytica*: relation avec la synthèse des lipides
M. ELISABETTA GUERZONI, PAOLO LAMBERTINI, AGOSTINO CAVAZZA et ROSA MARCHETTI **620**

Lämmler, C.
Binding of α_2-macroglobulin and haptoglobin to *Actinomyces pyogenes*
CHRISTOPH LÄMMLER, GURSHARAN S. CHHATWAL, and HANS BLOBEL **657**

Laszlo, A.
Intralaboratory comparison of drug susceptibility testing of *Mycobacterium tuberculosis* by BACTEC and conventional methodology
A. LASZLO **957**

Lawford, G.R.
Isolation and characterization of a *Saccharomycopsis lipolytica* mutant showing increased production of citric acid from canola oil
DAVID W. GOOD, RANDAL DRONIUK, G. ROSS LAWFORD, and JARED E. FEIN **436**

Laycock, M.
Pathway of ammonium assimilation in *Streptomyces venezuelae* examined by amino acid analyses and ^{15}N nuclear magnetic resonance spectroscopy
S. SHAPIRO, L.C. VINING, M. LAYCOCK, A.G. MCINNES, and J.A. WALTER **629**

Lee, A.
Effect of phenolic compounds, ethyl alcohol, and sodium metabisulphite on the lytic activity of phage PL-1 on a *Lactobacillus casei* S strain
A. LEE, R. ESCHENBRUCH, and J. WALLER **873**

Lee, E.C.
Expression of *Campylobacter* genes for proline biosynthesis in *Escherichia coli*
EILEEN C. LEE, RICHARD I. WALKER, and PATRICIA GUERRY **1064**

Lembke, L.L.
Airborne microorganisms in a municipal solid waste recovery system
LINDA L. LEMBKE and RICHARD N. KNISELEY **198**

Lesher, R.J.
Comparison of fluorescent antibody, bacitracin susceptibility, latex agglutination, coagglutination, and API 20S for identifying group A streptococci
R.J. LESHER and A.E. CASIANO-COLON **335**

Leusch, H.G.
Fluorometric determination of the total DNA content of different yeast species using 4′,6-diamidino-2-phenyl-indol-dihydrochloride
H.G. Leusch, M. Hoffmann, and C.C. Emeis **1164**

Levanony, H.
An improved selection technique and medium for the isolation and enumeration of *Azospirillum brasilense*
Yoav Bashan and Hanna Levanony **947**

Lewis, K.E.
The regulation of sexual development in *Dictyostelium discoideum*: cannibalistic behaviour of the giant cell
Keith E. Lewis and Danton H. O'Day **423**

Lin, C.P.
Monoclonal antibodies against corn stunt spiroplasma
C.P. Lin and T.A. Chen **900**

Lippi, D.
Regulation of respiratory activity by oxygen in *Arthrobacter fluorescens* ammonium-limited chemostat culture
I. Cacciari, D. Lippi, S. Ippoliti, T. Pietrosanti, and W. Pietrosanti **896**

Lipson, S.M.
Specificity of virus adsorption to clay minerals
Steven M. Lipson and G. Stotzky **50**

Effect of bacteria on the inactivation and adsorption on clay minerals of reovirus
Steven M. Lipson and G. Stotzky **730**

Lisker, N.
Involvement of fungi in the increase of free fatty acids in stored soybeans
N. Lisker, A. Ben-Efraim, and Y. Henis **799**

Scanning electron microscopy of the ontogeny of *Ampelomyces quisqualis* pycnidia
S. Galper, A. Sztejnberg, and N. Lisker **961**

Effects of cysteine and structurally related compounds on ochratoxin production by *Aspergillus ochraceus*
N. Lisker, N. Paster, and I. Chet **973**

Liss, S.N.
Antibiotic activity of an isocyanide metabolite of *Trichoderma hamatum* against rumen bacteria
S.N. Liss, D. Brewer, A. Taylor, and G.A. Jones **767**

Löffler, H.J.M.
Inhibition of chlamydospore production in *Fusarium oxysporum* by ammonia and high ion concentrations
H.J.M. Löffler and B. Schippers **508**

Lyon, F.L.
Chemical and enzymatic variation in the cell walls of pathogenic *Candida* species
Frank L. Lyon and Judith E. Domer **590**

Lyon, G.D.
Modification of the outer surface of *Erwinia carotovora* ssp. *atroseptica* by the phytoalexin rishitin
W.M. Robertson, G.D. Lyon, and C.E. Henry **1108**

MacDonald, M.J.
Location of cellulolytic enzyme activity in the marine fungus *Trichocladium achrasporum*
M.J. MacDonald, D.L. Hartley, and M.K. Speedie **145**

Madden, J.M.
Isolation and characterization of a cytolysin produced by *Vibrio cholerae* serogroup non-O1
Barbara A. McCardell, Joseph M. Madden, and Dhirendra B. Shah **711**

Maeda, M.
Purification and characterization of the protease inhibitor "monastatin" from a marine *Alteromonas* sp. with reference to inhibition of the protease produced by a bacterium pathogenic to fish
Chiaki Imada, Masachika Maeda, and Nobuo Taga **1089**

Magnarelli, L.A.
Spotted fever group rickettsiae in immature and adult ticks (Acari: Ixodidae) from a focus of Rocky Mountain spotted fever in Connecticut
Louis A. Magnarelli, John F. Anderson, Willy Burgdorfer, Robert N. Philip, and W. Adrian Chappell **1131**

Manocha, M.S.
Properties of chitin synthase from mucoraceous hosts of a mycoparasite
M.S. Manocha and A. Begum **6**

A comparative study of properties of chitin synthase from two *Mortierella* species
J.P. Adjimani and M.S. Manocha **1035**

Manzanal, M.B.
Role of substrate mycelium in colony development in *Streptomyces*
Carmen Méndez, Alfredo F. Braña, Manuel B. Manzanal, and Carlos Hardisson **446**

Erratum: Role of substrate mycelium in colony development in *Streptomyces*
Carmen Méndez, Alfredo F. Braña, Manuel B. Manzanal, and Carlos Hardisson **1070**

Maoz, A.
Antigenic differences among several *Trichoderma* isolates
Rina Barak, Arieh Maoz, and Ilan Chet **810**

Marchetti, R.
Observations préliminaires sur l'accumulation d'hydrocarbures chez *Candida steatolytica*: relation avec la synthèse des lipides
M. Elisabetta Guerzoni, Paolo Lambertini, Agostino Cavazza et Rosa Marchetti **620**

Marechal, L.R.
Oxidative pathway for L-rhamnose degradation in *Pullularia pullulans*
Liu Un Rigo, L.R. Marechal, Muriel M. Vieira, and L.A. Veiga **817**

Markoulatos, P.
Seasonal distribution of enteroviruses and adenoviruses in domestic sewage
Vassilis Krikelis, Niki Spyrou, Panayotis Markoulatos, and Charles Serie **24**

Maronek, D.M.
Relationship between the ectomycorrhizal fungus *Pisolithus tinctorius* associated with loblolly pine and acid-generating *Thiobacillus* spp. on an acidic strip mine site
James W. Hendrix, Cathy Stevens Hunt, and Dale M. Maronek **878**

Marquis, R.E.
Barotolerant variant of *Streptococcus faecalis* with reduced sensitivity to glucose catabolite repression
John Campbell III, Gary R. Bender, and Robert E. Marquis **644**

Martikainen, P.J.
Nitrosospira, an important ammonium-oxidizing bacterium in fertilized coniferous forest soil
Pertti J. Martikainen and Eeva-Liisa Nurmiaho-Lassila **190**

Martin, P.G.
Production of RNA-dependent haemolysin by *Haemophilus pleuropneumoniae*
P.G. Martin, P. Lachance, and D.F. Niven **456**

Martin, W.G.
Erratum: Immunological and enzymatic properties of the *Desulfovibrio desulfuricans* hydrogenase
E. Ziomek, W.G. Martin, and R.E. Williams **182**

Matsuda, B.
Evaluation of a modified enzyme immunoassay for *Neisseria gonorrhoeae* in high- and low-risk females
Michael R. Skeels, Bessie Matsuda, Henry Horton, James Sampson, Gary A. Sawyer, and Juanita Mitchell **893**

Mayrand, D.
Detection of collagenase activity in oral bacteria
D. MAYRAND and D. GRENIER 134

Cytotoxic effects of culture supernatants of oral bacteria and various organic acids on Vero cells
DANIEL GRENIER and DENIS MAYRAND 302

McCardell, B.A.
Isolation and characterization of a cytolysin produced by *Vibrio cholerae* serogroup non-O1
BARBARA A. MCCARDELL, JOSEPH M. MADDEN, and DHIRENDRA B. SHAH 711

McCarthy, C.M.
Influence of nitrogen source and growth status on glutamine synthetase and glutamate synthase activity in *Mycobacterium avium*
CHARLOTTE M. MCCARTHY and MARIA E. ALVAREZ 211

McCurdy, H.D.
Enzymes of the intermediary carbohydrate metabolism of *Polyangium cellulosum*
RENU SARAO, HOWARD D. MCCURDY, and LUCIANO PASSADOR 1142

McDonald, I.J.
Proton motive force as a function of the pH at which *Methanobacterium bryantii* is grown
G. DENNIS SPROTT, SHARON E. BIRD, and IAN J. MCDONALD 1031

McEachran, D.W.
Adhesion of *Pseudomonas aeruginosa* to human buccal epithelial cells: evidence for two classes of receptors
DAVID W. MCEACHRAN and RANDALL T. IRVIN 563

McInnes, A.G.
Pathway of ammonium assimilation in *Streptomyces venezuelae* examined by amino acid analyses and ^{15}N nuclear magnetic resonance spectroscopy
S. SHAPIRO, L.C. VINING, M. LAYCOCK, A.G. MCINNES, and J.A. WALTER 629

McKinley, V.L.
Effects of different temperature regimes on microbial activity and biomass in composting municipal sewage sludge
VICKY L. MCKINLEY and J. ROBIE VESTAL 919

McLoughlin, T.J.
Competition studies with fast-growing *Rhizobium japonicum* strains
THOMAS J. MCLOUGHLIN, P. ANN OWENS, and SCOTT G. ALT 220

McNaughton, M.E.
Sugar composition and serological specificity of *Erwinia carotovora* lipopolysaccharides
S.H. DE BOER, J.J. BRADSHAW-ROUSE, L. SEQUEIRA, and M.E. MCNAUGHTON 583

Méndez, C.
Role of substrate mycelium in colony development in *Streptomyces*
CARMEN MÉNDEZ, ALFREDO F. BRAÑA, MANUEL B. MANZANAL, and CARLOS HARDISSON 446

Erratum: Role of substrate mycelium in colony development in *Streptomyces*
CARMEN MÉNDEZ, ALFREDO F. BRÁNA, MANUEL B. MANZANAL, and CARLOS HARDISSON 1070

Mendonça-Hagler, L.C.
DNA relatedness among aquatic yeasts of the genus *Metschnikowia* and proposal of the species *Metschnikowia australis* comb. nov.
LEDA CRISTINA MENDONÇA-HAGLER, ALLEN N. HAGLER, H.J. PHAFF, and JOANNE TREDICK 905

Menon, A.S.
Salmonellae and pollution indicator bacteria in municipal and food processing effluents and the Cornwallis River
A.S. MENON 598

Mescle, J.-F.
Sélection et analyse de mutants thermotolérants de *Zymomonas mobilis*, producteurs d'éthanol
BÉNÉDICTE BERTHELIN, JOSEPH ZUCCA et JEAN-FRANÇOIS MESCLE 934

Michel, G.
Structural studies of the cell wall polysaccharide of *Nocardia asteroides* R 399
ANNIE VOILAND and GEORGES MICHEL 1011

Millero, F.J.
The toxicity of copper to the marine bacterium *Vibrio alginolyticus*
DONALD R. SCHREIBER, ANDREW S. GORDON, and FRANK J. MILLERO 83

Mitchell, J.
Evaluation of a modified enzyme immunoassay for *Neisseria gonorrhoeae* in high- and low-risk females
MICHAEL R. SKEELS, BESSIE MATSUDA, HENRY HORTON, JAMES SAMPSON, GARY A. SAWYER, and JUANITA MITCHELL 893

Molin, G.
Effect of carbon dioxide on growth of *Pseudomonas putida* ATCC 11172 on asparagine, citrate, glucose, and lactate in batch and continuous culture
GÖRAN MOLIN 763

Montant, C.
Distribution of sterols in fungi. II. Brassicasterol in *Tuber* and *Terfezia* species
J.D. WEETE, M. KULIFAJ, C. MONTANT, W.R. NES, and M. SANCHOLLE 1127

Moriarty, D.J.W.
Quantitative determination of microbial activity and community nutritional status in estuarine sediments: evidence for a disturbance artifact
ROBERT H. FINDLAY, PETER C. POLLARD, DAVID J.W. MORIARTY, and DAVID C. WHITE 493

Morrison, D.J.
Isozyme patterns of *Armillaria* intersterility groups occurring in British Columbia
D.J. MORRISON, A.J. THOMSON, D. CHU, F.G. PEET, T.S. SAHOTA, and U. RINK 651

Mukherjee, K.
The production of constitutive invertase and inulinase by the mushroom *Panaeolus papillonaceus* in submerged culture
KHANA MUKHERJEE (CHAKRABORTY) and S. SENGUPTA 773

Murray, R.G.E.
Effect of calcium on the *in vivo* assembly of the surface protein of *Aquaspirillum serpens* VHA
S.F. KOVAL and R.G.E. MURRAY 261

Swarmer cell differentiation of *Proteus mirabilis* in fluid media
H. DICK, R.G.E. MURRAY, and S. WALMSLEY 1041

Murry, M.A.
Effect of O_2 on vesicle formation, acetylene reduction, and O_2-uptake kinetics in *Frankia* sp. HFPCcl3 isolated from *Casuarina cunninghamiana*
MARCIA A. MURRY, ZHANG ZHONGZE, and JOHN G. TORREY 804

Mutharia, L.M.
Characterization of two surface-localized antigenic sites on porin protein F of *Pseudomonas aeruginosa*
LUCY M. MUTHARIA and ROBERT E.W. HANCOCK 381

Nagendrappa, G.
Erratum: Metabolism of carbaryl and carbofuran by soil-enrichment and bacterial cultures
B.S. RAJAGOPAL, V.R. RAO, G. NAGENDRAPPA, and N. SETHUNATHAN 581

Nair, R.C.
Effect of relative humidity, atmospheric temperature, and suspending medium on the airborne survival of human rotavirus
M. KHALID IJAZ, SYED A. SATTAR, C. MARGARET JOHNSON-LUSSENBURG, V. SUSAN SPRINGTHORPE, and RAMA C. NAIR 681

Nakoneczna, I.
Histopathological evidence for protective immunity induced by sonicated *Salmonella* vaccine
H.S. Hsu, I. Nakoneczna, and Yan-nie Guo 54

Narushima, H.
Isolation and characterization of antibiotic-resistance plasmids in thermophilic bacilli
Takayuki Hoshino, Takayuki Ikeda, Hiroyuki Narushima, and Noboru Tomizuka 339

Neirinck, L.G.
Xylitol as a carbon source for growth and ethanol production by *Pachysolen tannophilus*
Leonard G. Neirinck, C.S. Tsai, John L. Labelle, and Henry Schneider 451

Nes, W.R.
Distribution of sterols in fungi. II. Brassicasterol in *Tuber* and *Terfezia* species
J.D. Weete, M. Kulifaj, C. Montant, W.R. Nes, and M. Sancholle 1127

Neuhard, J.
Isolation and characterization of pyrimidine mutants of *Salmonella typhimurium* altered in expression of *pyrC*, *pyrD*, and *pyrE*
Rod A. Kelln, J. Neuhard, and Lisbeth Stauning 981

Ng, C.W.
Ultrastructural changes observed in *Rickettsia rickettsii* incubated at different temperatures in cell-free medium
R.D. Pontefract, C.W. Ng, and G. Bergeron 305

Nicas, T.I.
The contribution of exoproducts to virulence of *Pseudomonas aeruginosa*
Thalia I. Nicas and Barbara H. Iglewski 387

Niven, D.F.
Production of RNA-dependent haemolysin by *Haemophilus pleuropneumoniae*
P.G. Martin, P. Lachance, and D.F. Niven 456

Nobre, M.F.
Factors favouring the accumulation of arabinitol in the yeast *Debaryomyces hansenii*
M. Fernanda Nobre and Milton S. da Costa 467

The accumulation of polyols by the yeast *Debaryomyces hansenii* in response to water stress
M. Fernanda Nobre and Milton S. da Costa 1061

Nurmiaho-Lassila, E.-L.
Nitrosospira, an important ammonium-oxidizing bacterium in fertilized coniferous forest soil
Pertti J. Martikainen and Eeva-Liisa Nurmiaho-Lassila 190

Oakley, J.D.
Trypsin-susceptible cell surface characteristics of *Streptococcus sanguis*
J. David Oakley, K. Grant Taylor, and R. Jennings Doyle 1103

O'Brien, J.M., Jr.
Identification of a *trans*-dominant mutation affecting proline dehydrogenase in *Escherichia coli*
Charles E. Deutch, John M. O'Brien, Jr., and Michael S. VanNieuwenhze 988

O'Day, D.H.
The regulation of sexual development in *Dictyostelium discoideum*: cannibalistic behaviour of the giant cell
Keith E. Lewis and Danton H. O'Day 423

Odham, G.
Determination of phospholipid ester-linked fatty acids and poly β-hydroxybutyrate for the estimation of bacterial biomass and activity in the rhizosphere of the rape plant *Brassica napus* (L.)
Anders Tunlid, Bruce H. Baird, Melanie B. Trexler, Stefan Olsson, Robert H. Findlay, Goran Odham, and David C. White 1113

Okon, Y.
Production of the reserve material poly-β-hydroxybutyrate and its function in *Azospirillum brasilense* Cd
Sara Tal and Yaacov Okon 608

Changes in root morphology of wheat caused by *Azospirillum* inoculation
Yoram Kapulnik, Yaacov Okon, and Yigel Henis 881

Olsen, J.
Preparation of protoplasts from mycelium and arthroconidia of *Geotrichum candidum*
T. Jacobsen, B. Jensen, J. Olsen, and K. Allermann 93

Olsson, S.
Determination of phospholipid ester-linked fatty acids and poly β-hydroxybutyrate for the estimation of bacterial biomass and activity in the rhizosphere of the rape plant *Brassica napus* (L.)
Anders Tunlid, Bruce H. Baird, Melanie B. Trexler, Stefan Olsson, Robert H. Findlay, Goran Odham, and David C. White 1113

Ordóñez, J.A.
Effect of growth temperature on lipid composition of *Streptococcus faecium*
J.A. Ordóñez, L. de la Hoz, J.I. Azcona, and B. Sanz 361

Owens, P.A.
Competition studies with fast-growing *Rhizobium japonicum* strains
Thomas J. McLoughlin, P. Ann Owens, and Scott G. Alt 220

Padmaja, G.
Cyanide degradation by *Rhizopus oryzae*
G. Padmaja and C. Balagopal 663

Page, W.J.
Genetic transformation of molybdenum-starved *Azotobacter vinelandii*: increased transformation frequency and recipient range
William J. Page 659

Pajaro, M.C.
A thiol-activated hemolysin in Gram-negative bacteria
Inés Albesa, Lucila Isabel Barberis, María Cristina Pajaro, María Cecilia Farnochi, and Alberto Jorge Eraso 297

Parkinson, D.
Bacterial and fungal activity in sulphur dioxide polluted soils
R.J.F. Bewley and D. Parkinson 13

Passador, L.
Enzymes of the intermediary carbohydrate metabolism of *Polyangium cellulosum*
Renu Sarao, Howard D. McCurdy, and Luciano Passador 1142

Paster, N.
Effects of cysteine and structurally related compounds on ochratoxin production by *Aspergillus ochraceus*
N. Lisker, N. Paster, and I. Chet 973

Patrick, Z.A.
Properties of bacteria isolated from surfaces of conidia of *Cochliobolus sativus* incubated in soil
A. Fradkin and Z.A. Patrick 411

Patriquin, D.G.
Characterization of a substance produced by *Azospirillum* which causes branching of wheat root hairs
Devender K. Jain and David G. Patriquin 206

Paul, J.H.
The effect of surfactants on the attachment of estuarine and marine bacteria to surfaces
John H. Paul and Wade H. Jeffrey 224

Payment, P.
Influence of inoculum size, incubation temperature, and cell culture density on virus detection in environmental samples
Pierre Payment and Michel Trudel 977

Peet, F.G.
Isozyme patterns of *Armillaria* intersterility groups occurring in British Columbia
D.J. Morrison, A.J. Thomson, D. Chu, F.G. Peet, T.S. Sahota, and U. Rink **651**

Peppler, M.S.
Temperature-sensitive mutants in *rfaI* and *rfaJ*, genes for galactosyltransferase I and glucosyltransferase II, for synthesis of lipopolysaccharide in *Salmonella typhimurium*
Sunil K. Kadam, Mark S. Peppler, and Kenneth E. Sanderson **861**

Perry, J.J.
Oxygen defense systems in obligately thermophilic bacteria
Gregory S. Allgood and Jerome J. Perry **1006**

Peterkin, P.I.
Effect of homogenization procedures on *Escherichia coli* counts in naturally contaminated cheese
P.I. Peterkin, A.N. Sharpe, and D.W. Warburton **180**

Peterson, R.L.
Sclerotia as viable sources of mycelia for the establishment of ectomycorrhizae
D.J. Grenville, Y. Piché, and R.L. Peterson **1085**

Pfister, R.M.
Glucose metabolism and pyruvate excretion by *Streptomyces alboniger*
Kenneth G. Surowitz and Robert M. Pfister **702**

Erratum: Glucose metabolism and pyruvate excretion by *Streptomyces alboniger*
Kenneth G. Surowitz and Robert M. Pfister **1168**

Phaff, H.J.
DNA relatedness among aquatic yeasts of the genus *Metschnikowia* and proposal of the species *Metschnikowia australis* comb. nov.
Leda Cristina Mendonça-Hagler, Allen N. Hagler, H.J. Phaff, and Joanne Tredick **905**

Philip, R.N.
Spotted fever group rickettsiae in immature and adult ticks (Acari: Ixodidae) from a focus of Rocky Mountain spotted fever in Connecticut
Louis A. Magnarelli, John F. Anderson, Willy Burgdorfer, Robert N. Philip, and W. Adrian Chappell **1131**

Picataggio, S.K.
Analysis of xylose operon regulation by Mud (Ap^r, lac) fusion: trans effect of plasmid coded xylose operon
C.A. Batt, M.S. Bodis, S.K. Picataggio, M.C. Claps, S. Jamas, and A.J. Sinskey **930**

Piché, Y.
Sclerotia as viable sources of mycelia for the establishment of ectomycorrhizae
D.J. Grenville, Y. Piché, and R.L. Peterson **1085**

Pickard, M.A.
Maltol, a metabolite of *Scytalidium uredinicola* which inhibits spore germination of *Endocronartium harknessii*, the western gall rust
James E. Cunningham and Michael A. Pickard **1051**

Pietrosanti, T.
Regulation of respiratory activity by oxygen in *Arthrobacter fluorescens* ammonium-limited chemostat culture
I. Cacciari, D. Lippi, S. Ippoliti, T. Pietrosanti, and W. Pietrosanti **896**

Pietrosanti, W.
Regulation of respiratory activity by oxygen in *Arthrobacter fluorescens* ammonium-limited chemostat culture
I. Cacciari, D. Lippi, S. Ippoliti, T. Pietrosanti, and W. Pietrosanti **896**

Platt, R.M.
Isolation and partial chemical analysis of firmly bound exopolysaccharide from adherent cells of a freshwater sediment bacterium
R.M. Platt, G.G. Geesey, J.D. Davis, and D.C. White **675**

Plazinski, J.
Azospirillum–Rhizobium interaction leading to a plant growth stimulation without nodule formation
Jacek Plazinski and Barry G. Rolfe **1026**

Pollard, P.C.
Quantitative determination of microbial activity and community nutritional status in estuarine sediments: evidence for a disturbance artifact
Robert H. Findlay, Peter C. Pollard, David J.W. Moriarty, and David C. White **493**

Pontefract, R.D.
Ultrastructural changes observed in *Rickettsia rickettsii* incubated at different temperatures in cell-free medium
R.D. Pontefract, C.W. Ng, and G. Bergeron **305**

Pramer, D.
Role of trap lectins in the specificity of nematode capture by fungi
W.D. Rosenzweig, D. Premachandran, and D. Pramer **693**

Prasad, R.
Phospholipid enrichment of *Saccharomyces cerevisiae* and its effect on polyene sensitivity
T. Venu Gopala Rao, Akhilesh Trivedi, and Rajendra Prasad **322**

Premachandran, D.
Role of trap lectins in the specificity of nematode capture by fungi
W.D. Rosenzweig, D. Premachandran, and D. Pramer **693**

Qureshi, N.
Purification and characterization of C_{28-55} fatty acids from *Mycobacterium smegmatis*
Neeraja Sathyamoorthy, Nilofer Qureshi, and Kuni Takayama **214**

Raibaud, P.
Efficiency of various bacterial suspensions derived from cecal floras of conventional chickens in reducing the population level of *Salmonella typhimurium* in gnotobiotic mice and chicken intestines
Sylvie Hudault, Hilaire Bewa, Chantal Bridonneau, and Pierre Raibaud **832**

Rajagopal, B.S.
Erratum: Metabolism of carbaryl and carbofuran by soil-enrichment and bacterial cultures
B.S. Rajagopal, V.R. Rao, G. Nagendrappa, and N. Sethunathan **581**

Ramos-Cormenzana, A.
Étude de l'influence du rapport Mg/Ca sur la formation de carbonate par des bactéries telluriques
M.A. Rivadeneyra, A. Ramos-Cormenzana et A. Garcia-Cervigon **229**

Ranga Rao, V.
Use of the enzyme-linked immunosorbent assay (ELISA) in the detection of *Rhizobium* both in culture and from root nodules of soybeans and cowpeas
S. Asanuma, G. Thottappilly, A. Ayanaba, and V. Ranga Rao **524**

Rao, T.V.G.
Phospholipid enrichment of *Saccharomyces cerevisiae* and its effect on polyene sensitivity
T. Venu Gopala Rao, Akhilesh Trivedi, and Rajendra Prasad **322**

Rao, V.R.
Erratum: Metabolism of carbaryl and carbofuran by soil-enrichment and bacterial cultures
B.S. Rajagopal, V.R. Rao, G. Nagendrappa, and N. Sethunathan **581**

Raphael, R.A.
Long-term survival of human rotavirus in raw and treated river water
R.A. Raphael, S.A. Sattar, and V.S. Springthorpe **124**

Rast, D.M.
Cellular and chitosomal lipids of *Agaricus bisporus* and *Mucor rouxii*
John D. Weete, Rolf Furter, Edgar Hänseler, and Dora M. Rast **1120**

Ratledge, C.
Partial purification and properties of pyruvate kinase and its regulatory role during lipid accumulation by the oleaginous yeast *Rhodosporidium toruloides* CBS 14
CHRISTOPHER THOMAS EVANS and COLIN RATLEDGE **479**

The role of the mitochondrial NAD^+:isocitrate dehydrogenase in lipid accumulation by the oleaginous yeast *Rhodosporidium toruloides* CBS 14
CHRISTOPHER THOMAS EVANS and COLIN RATLEDGE **845**

Possible regulatory roles of ATP:citrate lyase, malic enzyme, and AMP deaminase in lipid accumulation by *Rhodosporidium toruloides* CBS 14
CHRISTOPHER THOMAS EVANS and COLIN RATLEDGE **1000**

Reid, I.D.
Lignin degradation by *Phanerochaete chrysosporium* in agitated cultures
IAN D. REID, EMA E. CHAO, and PETER S.S. DAWSON **88**

Rice, M.
Detection and functional characterization of early appearing antibodies in rabbits with experimental syphilis
MARIANNE RICE and T.J. FITZGERALD **62**

Immune immobilization of *Treponema pallidum*: antibody and complement interactions revisited
MARIANNE RICE and T.J. FITZGERALD **1147**

Richard, C.
Inhibition de champignons phytopathogènes par des bactéries isolées du sol et de la rhizosphère de légumineuses
S. GAGNÉ, H. ANTOUN et C. RICHARD **856**

Rigo, L.U.
Oxidative pathway for L-rhamnose degradation in *Pullularia pullulans*
LIU UN RIGO, L.R. MARECHAL, MURIEL M. VIEIRA, and L.A. VEIGA **817**

Rink, U.
Isozyme patterns of *Armillaria* intersterility groups occurring in British Columbia
D.J. MORRISON, A.J. THOMSON, D. CHU, F.G. PEET, T.S. SAHOTA, and U. RINK **651**

Rivadeneyra, M.A.
Étude de l'influence du rapport Mg/Ca sur la formation de carbonate par des bactéries telluriques
M.A. RIVADENEYRA, A. RAMOS-CORMENZANA et A. GARCIA-CERVIGON **229**

Robert, F.M.
Somatic serogroups among 55 strains of *Rhizobium phaseoli*
FRANCOISE M. ROBERT and E.L. SCHMIDT **519**

Robertson, W.M.
Modification of the outer surface of *Erwinia carotovora* ssp. *atroseptica* by the phytoalexin rishitin
W.M. ROBERTSON, G.D. LYON, and C.E. HENRY **1108**

Robinson, G.G.C.
Heterotrophic potential of the green alga, *Ankistrodesmus braunii* (Naeg.)
R.C. BOLLMAN and G.G.C. ROBINSON **549**

Robinson, R.W.
Immuno-electron microscopic identification of *Methanosarcina* spp. in anaerobic digester fluid
RALPH W. ROBINSON and GREGORY W. ERDOS **839**

Rodríguez, H.
The localization and activity of *Cellulomonas* xylanase on sugarcane bagasse pith
H. RODRÍGUEZ, A. ENRÍQUEZ, and O. VOLFOVÁ **754**

Rodriguez, L.D.
Isolation de micro-organismes du genre *Listeria* à partir de lait cru destiné à la consommation humaine
LUCAS DOMÍNGUEZ RODRIGUEZ, JOSE F. FERNÁNDEZ GARAYZABAL, JOSE A. VAZQUEZ BOLAND, ELIAS RODRIGUEZ FERRI et GUILLERMO SUAREZ FERNÁNDEZ **938**

Röhr, M.
Formation of D-amino-acid oxidase in the yeast *Trigonopsis variabilis*
EVA M. KUBICEK-PRANZ and M. RÖHR **625**

Rolfe, B.G.
Azospirillum–Rhizobium interaction leading to a plant growth stimulation without nodule formation
JACEK PLAZINSKI and BARRY G. ROLFE **1026**

Roop, R.M., II
DNA homology studies of the catalase-negative campylobacters and "*Campylobacter fecalis*," an emended description of *Campylobacter sputorum*, and proposal of the neotype strain of *Campylobacter sputorum*
R. MARTIN ROOP II, ROBERT M. SMIBERT, JOHN L. JOHNSON, and NOEL R. KRIEG **823**

Rosenzweig, W.D.
Role of trap lectins in the specificity of nematode capture by fungi
W.D. ROSENZWEIG, D. PREMACHANDRAN, and D. PRAMER **693**

Rosini, G.
Interaction between killer strains of *Hansenula anomala* var. *anomala* and *Saccharomyces cerevisiae* yeast species
GIANFRANCO ROSINI **300**

Rossignol, G.
Octopine, nopaline, and octopinic acid utilization in *Pseudomonas*
G. ROSSIGNOL and P. DION **68**

Roy, R.
Levains lactiques: corrélation entre les dénombrements sur gélose et l'ATP cellulaire
R. ROY et J. GOULET **555**

Rudrik, J.T.
Determination of mercury and organomercurial resistance in obligate anaerobic bacteria
JAMES T. RUDRIK, ROGER E. BAWDON, and STEPHEN P. GUSS **276**

Safferman, R.S.
Erratum: Comparison of commercial beef extracts and similar materials for recovering viruses from environmental samples
CHRISTON J. HURST, DANIEL R. DAHLING, ROBERT S. SAFFERMAN, and TAMARA GOYKE **502**

Sahota, T.S.
Isozyme patterns of *Armillaria* intersterility groups occurring in British Columbia
D.J. MORRISON, A.J. THOMSON, D. CHU, F.G. PEET, T.S. SAHOTA, and U. RINK **651**

Sampson, J.
Evaluation of a modified enzyme immunoassay for *Neisseria gonorrhoeae* in high- and low-risk females
MICHAEL R. SKEELS, BESSIE MATSUDA, HENRY HORTON, JAMES SAMPSON, GARY A. SAWYER, and JUANITA MITCHELL **893**

Sànchez, J.
Restriction-modification systems in *Streptomyces antibioticus*
JESÚS SÀNCHEZ, COVADONGA BARBÉS, ANGELES HERNANDEZ, CLARA-ROSA G. DE LOS REYES GAVILÀN, and CARLOS HARDISSON **942**

Sancholle, M.
Distribution of sterols in fungi. II. Brassicasterol in *Tuber* and *Terfezia* species
J.D. WEETE, M. KULIFAJ, C. MONTANT, W.R. NES, and M. SANCHOLLE **1127**

Sanderson, K.E.
Temperature-sensitive mutants in *rfaI* and *rfaJ*, genes for galactosyltransferase I and glucosyltransferase II, for synthesis of lipopolysaccharide in *Salmonella typhimurium*
SUNIL K. KADAM, MARK S. PEPPLER, and KENNETH E. SANDERSON **861**

Sanz, B.
Effect of growth temperature on lipid composition of *Streptococcus faecium*
J.A. ORDÓÑEZ, L. DE LA HOZ, J.I. AZCONA, and B. SANZ **361**

Sarao, R.
Enzymes of the intermediary carbohydrate metabolism of *Polyangium cellulosum*
RENU SARAO, HOWARD D. MCCURDY, and LUCIANO PASSADOR **1142**

Sathyamoorthy, N.
Purification and characterization of C_{28-55} fatty acids from *Mycobacterium smegmatis*
NEERAJA SATHYAMOORTHY, NILOFER QURESHI, and KUNI TAKAYAMA **214**

Sattar, S.A.
Long-term survival of human rotavirus in raw and treated river water
R.A. RAPHAEL, S.A. SATTAR, and V.S. SPRINGTHORPE **124**

Effect of relative humidity, atmospheric temperature, and suspending medium on the airborne survival of human rotavirus
M. KHALID IJAZ, SYED A. SATTAR, C. MARGARET JOHNSON-LUSSENBURG, V. SUSAN SPRINGTHORPE, and RAMA C. NAIR **681**

Effect of relative humidity on the airborne survival of rhinovirus-14
YASMIN G. KARIM, M. KHALID IJAZ, SYED A. SATTAR, and C. MARGARET JOHNSON-LUSSENBURG **1058**

Savidge, R.A.
Production of cellulose and soluble polysaccharides by *Acetobacter xylinum*
RODNEY ARTHUR SAVIDGE and J. ROSS COLVIN **1019**

Sawyer, G.A.
Evaluation of a modified enzyme immunoassay for *Neisseria gonorrhoeae* in high- and low-risk females
MICHAEL R. SKEELS, BESSIE MATSUDA, HENRY HORTON, JAMES SAMPSON, GARY A. SAWYER, and JUANITA MITCHELL **893**

Scher, F.M.
Chemotaxis of fluorescent *Pseudomonas* spp. to soybean seed exudates *in vitro* and in soil
F.M. SCHER, J.W. KLOEPPER, and C.A. SINGLETON **570**

Measuring the spermosphere colonizing capacity (spermosphere competence) of bacterial inoculants
J.W. KLOEPPER, F.M. SCHER, M. LALIBERTÉ, and I. ZALESKA **926**

Schiemann, D.A.
Some conditions influencing the association of *Yersinia enterocolitica* with epithelial cells *in vitro*
DONALD A. SCHIEMANN and PAMELA J. SWANZ **953**

Schimz, K.-L.
Cellobiose phosphorylase (EC 2.4.1.20) of *Cellulomonas* sp.: investigations on its localization
KARL-L. SCHIMZ and GABY DECKER **751**

Schippers, B.
Inhibition of chlamydospore production in *Fusarium oxysporum* by ammonia and high ion concentrations
H.J.M. LÖFFLER and B. SCHIPPERS **508**

Schmidt, E.L.
Somatic serogroups among 55 strains of *Rhizobium phaseoli*
FRANCOISE M. ROBERT and E.L. SCHMIDT **519**

Schneider, H.
Xylitol as a carbon source for growth and ethanol production by *Pachysolen tannophilus*
LEONARD G. NEIRINCK, C.S. TSAI, JOHN L. LABELLE, and HENRY SCHNEIDER **451**

Schollardt, T.
Virulence of *Pseudomonas aeruginosa* strains with mechanisms of microbial persistence for β-lactam and aminoglycoside antibiotics in a mouse infection model
L.E. BRYAN, A.J. GODFREY, and T. SCHOLLARDT **377**

Schrauwen, J.A.M.
Postfusion incompatibility in *Physarum polycephalum*: changes in protein pattern of a heterokaryon
J.A.M. SCHRAUWEN **778**

Postfusion incompatibility in *Physarum polycephalum*: involvement of membranes
J.A.M. SCHRAUWEN **782**

Schreiber, D.R.
The toxicity of copper to the marine bacterium *Vibrio alginolyticus*
DONALD R. SCHREIBER, ANDREW S. GORDON, and FRANK J. MILLERO **83**

Sen, K.
An unsaturated fatty acid mutant of *Aspergillus niger* with partially defective Δ^9-desaturase
PANCHANON CHATTOPADHYAY, SANTU KUMAR BANERJEE, KALYANI SEN, and PARUL CHAKRABARTI **346**

Lipid profiles of *Aspergillus niger* and its unsaturated fatty acid auxotroph, UFA_2
PANCHANON CHATTOPADHYAY, SANTU KUMAR BANERJEE, KALYANI SEN, and PARUL CHAKRABARTI **352**

Sengupta, S.
The production of constitutive invertase and inulinase by the mushroom *Panaeolus papillonaceus* in submerged culture
KHANA MUKHERJEE (CHAKRABORTY) and S. SENGUPTA **773**

Sequeira, L.
Sugar composition and serological specificity of *Erwinia carotovora* lipopolysaccharides
S.H. DE BOER, J.J. BRADSHAW-ROUSE, L. SEQUEIRA, and M.E. MCNAUGHTON **583**

Serie, C.
Seasonal distribution of enteroviruses and adenoviruses in domestic sewage
VASSILIS KRIKELIS, NIKI SPYROU, PANAYOTIS MARKOULATOS, and CHARLES SERIE **24**

Sethunathan, N.
Erratum: Metabolism of carbaryl and carbofuran by soil-enrich acterial cultures
B.S. RAJAGOPAL, V.R. RAO, G. NAGENDRAPPA, and N. SETHUNATHAN **581**

Shah, D.B.
Isolation and characterization of a cytolysin produced by *Vibrio cholerae* serogroup non-O1
BARBARA A. MCCARDELL, JOSEPH M. MADDEN, and DHIRENDRA B. SHAH **711**

Shapiro, S.
Effect of ammonium on chloramphenicol production by *Streptomyces venezuelae* in batch and continuous cultures
S. SHAPIRO and L.C. VINING **119**

Pathway of ammonium assimilation in *Streptomyces venezuelae* examined by amino acid analyses and ^{15}N nuclear magnetic resonance spectroscopy
S. SHAPIRO, L.C. VINING, M. LAYCOCK, A.G. MCINNES, and J.A. WALTER **629**

Sharpe, A.N.
Improved recovery of fecal coliforms from the Ottawa River by membrane filters in the presence of food debris
JEFFREY M. FARBER, ANTHONY N. SHARPE, and MILOSLAV KALAB **16**

Effect of homogenization procedures on *Escherichia coli* counts in naturally contaminated cheese
P.I. PETERKIN, A.N. SHARPE, and D.W. WARBURTON **180**

Sharrock, P.
Bacteristatic activity of phenanthrolines against *Escherichia coli* and *Bacillus subtilis*
PATRICK SHARROCK **367**

Shepherd, M.G.
Morphological studies of *N*-acetylglucosamine induced germ tube formation by *Candida albicans*
MICHAEL J. HUBBARD, PATRICK A. SULLIVAN, and MAXWELL G. SHEPHERD **696**

Singleton, C.A.
Chemotaxis of fluorescent *Pseudomonas* spp. to soybean seed exudates *in vitro* and in soil
F.M. Scher, J.W. Kloepper, and C.A. Singleton **570**

Sinskey, A.J.
Analysis of xylose operon regulation by Mud (Ap^r, lac) fusion: trans effect of plasmid coded xylose operon
C.A. Batt, M.S. Bodis, S.K. Picataggio, M.C. Claps, S. Jamas, and A.J. Sinskey **930**

Siqueira, J.O.
Spores, germination, and germ tubes of vesicular–arbuscular mycorrhizal fungi
J.O. Siqueira, D.M. Sylvia, J. Gibson, and D.H. Hubbell **965**

Skeels, M.R.
Evaluation of a modified enzyme immunoassay for *Neisseria gonorrhoeae* in high- and low-risk females
Michael R. Skeels, Bessie Matsuda, Henry Horton, James Sampson, Gary A. Sawyer, and Juanita Mitchell **893**

Smibert, R.M.
DNA homology studies of the catalase-negative campylobacters and "*Campylobacter fecalis*," an emended description of *Campylobacter sputorum*, and proposal of the neotype strain of *Campylobacter sputorum*
R. Martin Roop II, Robert M. Smibert, John L. Johnson, and Noel R. Krieg **823**

Sneddon, J.M.
The effect of ions on the adhesion and internalization of *Chlamydia trachomatis* by HeLa cells
John M. Sneddon and Wanda M. Wenman **371**

Sonnenfeld, E.M.
Discontinuity of charge on cell wall poles of *Bacillus subtilis*
E.M. Sonnenfeld, T.J. Beveridge, and R.J. Doyle **875**

Speedie, M.K.
Location of cellulolytic enzyme activity in the marine fungus *Trichocladium achrasporum*
M.J. MacDonald, D.L. Hartley, and M.K. Speedie **145**

Springthorpe, V.S.
Long-term survival of human rotavirus in raw and treated river water
R.A. Raphael, S.A. Sattar, and V.S. Springthorpe **124**

Effect of relative humidity, atmospheric temperature, and suspending medium on the airborne survival of human rotavirus
M. Khalid Ijaz, Syed A. Sattar, C. Margaret Johnson-Lussenburg, V. Susan Springthorpe, and Rama C. Nair **681**

Sprott, G.D.
Importance of sodium to the bioenergetic properties of *Methanococcus voltae*
Ken F. Jarrell and G.D. Sprott **851**

Proton motive force as a function of the pH at which *Methanobacterium bryantii* is grown
G. Dennis Sprott, Sharon E. Bird, and Ian J. McDonald **1031**

Spyrou, N.
Seasonal distribution of enteroviruses and adenoviruses in domestic sewage
Vassilis Krikelis, Niki Spyrou, Panayotis Markoulatos, and Charles Serie **24**

Stauning, L.
Isolation and characterization of pyrimidine mutants of *Salmonella typhimurium* altered in expression of *pyrC*, *pyrD*, and *pyrE*
Rod A. Kelln, J. Neuhard, and Lisbeth Stauning **981**

Stelmaschuk, S.
Comparison of the mitochondrial endonucleases from *Neurospora crassa* and *Saccharomyces cerevisiae*
Richard G. von Tigerstrom and Sheilah Stelmaschuk **654**

Stoessl, A.
Metabolites of *Cercospora arachidicola*. The first report of long-chain fatty aldehydes from a fungus
A. Stoessl **129**

Stotzky, G.
Specificity of virus adsorption to clay minerals
Steven M. Lipson and G. Stotzky **50**

Training of *Rhizopus stolonifer* and *Cunninghamella blakesleeana* to copper: cotolerance to cadmium, cobalt, nickel, and lead
A. Garcia-Toledo, H. Babich, and G. Stotzky **485**

Effect of bacteria on the inactivation and adsorption on clay minerals of reovirus
Steven M. Lipson and G. Stotzky **730**

Stranks, D.C.
Transformation of hamster embryo cells by chymotrypsin-treated and untreated polyoma virus: characterization of transformants
Vera Chlumecky, Donald C. Stranks, and John S. Colter **356**

Straus, D.C.
Extracellular polysaccharide production by *Klebsiella pneumoniae* and its relationship to virulence
Philip Domenico, Dana L. Diedrich, and David C. Straus **472**

Strohl, W.R.
Nutrient effects on anthracycline production by *Streptomyces peucetius* in a defined medium
Michael L. Dekleva, Jeffrey A. Titus, and William R. Strohl **287**

Su, W.
Independent development of heat resistance and ascospores of *Hansenula anomala*
Wanfang Su, L.R. Beuchat, and R.E. Worthington **45**

Sullivan, P.A.
Morphological studies of *N*-acetylglucosamine induced germ tube formation by *Candida albicans*
Michael J. Hubbard, Patrick A. Sullivan, and Maxwell G. Shepherd **696**

Sun, D.
Suppressor mutations for *crs* mutants of *Bacillus subtilis*
D. Sun and I. Takahashi **429**

Surowitz, K.G.
Glucose metabolism and pyruvate excretion by *Streptomyces alboniger*
Kenneth G. Surowitz and Robert M. Pfister **702**

Erratum: Glucose metabolism and pyruvate excretion by *Streptomyces alboniger*
Kenneth G. Surowitz and Robert M. Pfister **1168**

Swanz, P.J.
Some conditions influencing the association of *Yersinia enterocolitica* with epithelial cells *in vitro*
Donald A. Schiemann and Pamela J. Swanz **953**

Sylvia, D.M.
Spores, germination, and germ tubes of vesicular–arbuscular mycorrhizal fungi
J.O. Siqueira, D.M. Sylvia, J. Gibson, and D.H. Hubbell **965**

Sztejnberg, A.
Scanning electron microscopy of the ontogeny of *Ampelomyces quisqualis* pycnidia
S. Galper, A. Sztejnberg, and N. Lisker **961**

Taga, N.
Purification and characterization of the protease inhibitor "monastatin" from a marine *Alteromonas* sp. with reference to inhibition of the protease produced by a bacterium pathogenic to fish
Chiaki Imada, Masachika Maeda, and Nobuo Taga **1089**

Tagg, J.R.
An inhibitor typing scheme applicable to Lancefield group E streptococci
John R. Tagg **1056**

Takahashi, I.
Suppressor mutations for *crs* mutants of *Bacillus subtilis*
D. Sun and I. Takahashi **429**

Takayama, K.
Purification and characterization of C_{28-55} fatty acids from *Mycobacterium smegmatis*
Neeraja Sathyamoorthy, Nilofer Qureshi, and Kuni Takayama **214**

Tal, S.
Production of the reserve material poly-β-hydroxybutyrate and its function in *Azospirillum brasilense* Cd
Sara Tal and Yaacov Okon **608**

Taylor, A.
Antibiotic activity of an isocyanide metabolite of *Trichoderma hamatum* against rumen bacteria
S.N. Liss, D. Brewer, A. Taylor, and G.A. Jones **767**

Taylor, D.E.
Characterization of incompatibility group H11 plasmids from *Salmonella typhi* by restriction endonuclease digestion and hybridization of DNA probes for Tn3, Tn9, and Tn10
Diane E. Taylor and Elisa C. Brose **721**

Taylor, K.G.
Trypsin-susceptible cell surface characteristics of *Streptococcus sanguis*
J. David Oakley, K. Grant Taylor, and R. Jennings Doyle **1103**

Tershak, D.R.
Effect of temperature on growth of guanidine-resistant mutants of poliovirus
Daniel R. Tershak **1166**

Theodorou, C.
The reduction of root colonization by mycorrhizal fungi by mycophagous amoebae
S. Chakraborty, C. Theodorou, and G.D. Bowen **295**

Thomson, A.J.
Isozyme patterns of *Armillaria* intersterility groups occurring in British Columbia
D.J. Morrison, A.J. Thomson, D. Chu, F.G. Peet, T.S. Sahota, and U. Rink **651**

Thottappilly, G.
Use of the enzyme-linked immunosorbent assay (ELISA) in the detection of *Rhizobium* both in culture and from root nodules of soybeans and cowpeas
S. Asanuma, G. Thottappilly, A. Ayanaba, and V. Ranga Rao **524**

Tiedje, J.M.
Nitrogen fixation by naturally occurring duckweed–cyanobacterial associations
Tran Phuoc Duong and James M. Tiedje **327**

Titus, J.A.
Nutrient effects on anthracycline production by *Streptomyces peucetius* in a defined medium
Michael L. Dekleva, Jeffrey A. Titus, and William R. Strohl **287**

Tomasz, A.
Factors affecting sensitivity of group B streptococci to an exogenous murein hydrolase
Diane Horne and Alexander Tomasz **417**

Tomizuka, N.
Isolation and characterization of antibiotic-resistance plasmids in thermophilic bacilli
Takayuki Hoshino, Takayuki Ikeda, Hiroyuki Narushima, and Noboru Tomizuka **339**

Genetic relationship between pUB110 and antibiotic-resistant plasmids obtained from thermophilic bacilli
Takayuki Hoshino, Takayuki Ikeda, Kensuke Furukawa, and Noboru Tomizuka **614**

Torrey, J.G.
Effect of O_2 on vesicle formation, acetylene reduction, and O_2-uptake kinetics in *Frankia* sp. HFPCcl3 isolated from *Casuarina cunninghamiana*
Marcia A. Murry, Zhang Zhongze, and John G. Torrey **804**

Tredick, J.
DNA relatedness among aquatic yeasts of the genus *Metschnikowia* and proposal of the species *Metschnikowia australis* comb. nov.
Leda Cristina Mendonça-Hagler, Allen N. Hagler, H.J. Phaff, and Joanne Tredick **905**

Trexler, M.B.
Determination of phospholipid ester-linked fatty acids and poly β-hydroxybutyrate for the estimation of bacterial biomass and activity in the rhizosphere of the rape plant *Brassica napus* (L.)
Anders Tunlid, Bruce H. Baird, Melanie B. Trexler, Stefan Olsson, Robert H. Findlay, Goran Odham, and David C. White **1113**

Trivedi, A.
Phospholipid enrichment of *Saccharomyces cerevisiae* and its effect on polyene sensitivity
T. Venu Gopala Rao, Akhilesh Trivedi, and Rajendra Prasad **322**

Trudel, M.
Influence of inoculum size, incubation temperature, and cell culture density on virus detection in environmental samples
Pierre Payment and Michel Trudel **977**

Tsai, C.S.
Xylitol as a carbon source for growth and ethanol production by *Pachysolen tannophilus*
Leonard G. Neirinck, C.S. Tsai, John L. Labelle, and Henry Schneider **451**

Tunlid, A.
Determination of phospholipid ester-linked fatty acids and poly β-hydroxybutyrate for the estimation of bacterial biomass and activity in the rhizosphere of the rape plant *Brassica napus* (L.)
Anders Tunlid, Bruce H. Baird, Melanie B. Trexler, Stefan Olsson, Robert H. Findlay, Goran Odham, and David C. White **1113**

van Neerven, A.R.W.
Chemical and bacteriological composition of granular methanogenic sludge
J. Dolfing, A. Griffioen, A.R.W. van Neerven, and L.P.T.M. Zevenhuizen **744**

VanNieuwenhze, M.S.
Identification of a *trans*-dominant mutation affecting proline dehydrogenase in *Escherichia coli*
Charles E. Deutch, John M. O'Brien, Jr., and Michael S. VanNieuwenhze **988**

Van Ryk, D.I.
Activity changes of three nucleolytic enzymes during the life cycle of *Saccharomyces cerevisiae*
Donald I. Van Ryk and Richard G. von Tigerstrom **1095**

Vassilyadi, M.
Catalase, superoxide dismutase, and the production of O_2-sensitive mutants of *Bacillus coagulans*
Michael Vassilyadi and Frederick Archibald **994**

Veiga, L.A.
Oxidative pathway for L-rhamnose degradation in *Pullularia pullulans*
Liu Un Rigo, L.R. Marechal, Muriel M. Vieira, and L.A. Veiga **817**

Vestal, J.R.
Effects of different temperature regimes on microbial activity and biomass in composting municipal sewage sludge
Vicky L. McKinley and J. Robie Vestal **919**

Vieira, M.M.
Oxidative pathway for L-rhamnose degradation in *Pullularia pullulans*
Liu Un Rigo, L.R. Marechal, Muriel M. Vieira, and L.A. Veiga **817**

Vining, L.C.
Effect of ammonium on chloramphenicol production by *Streptomyces venezuelae* in batch and continuous cultures
S. Shapiro and L.C. Vining **119**

Pathway of ammonium assimilation in *Streptomyces venezuelae* examined by amino acid analyses and ^{15}N nuclear magnetic resonance spectroscopy
S. Shapiro, L.C. Vining, M. Laycock, A.G. McInnes, and J.A. Walter 629

Voiland, A.
Structural studies of the cell wall polysaccharide of *Nocardia asteroides* R 399
Annie Voiland and Georges Michel 1011

Volfová, O.
The localization and activity of *Cellulomonas* xylanase on sugarcane bagasse pith
H. Rodríguez, A. Enríquez, and O. Volfová 754

von Tigerstrom, R.G.
Comparison of the mitochondrial endonucleases from *Neurospora crassa* and *Saccharomyces cerevisiae*
Richard G. von Tigerstrom and Sheilah Stelmaschuk 654

Activity changes of three nucleolytic enzymes during the life cycle of *Saccharomyces cerevisiae*
Donald I. Van Ryk and Richard G. von Tigerstrom 1095

Walker, R.I.
The role of encapsulation in the pathogenesis of anaerobic gram-positive cocci
I. Brook and R.I. Walker 176

Expression of *Campylobacter* genes for proline biosynthesis in *Escherichia coli*
Eileen C. Lee, Richard I. Walker, and Patricia Guerry 1064

Wallace, R.
Growth of *Vibrio costicola* and other moderate halophiles in a chemically defined minimal medium
Masahiro Kamekura, Rebecca Wallace, Alan R. Hipkiss, and Donn J. Kushner 870

Waller, J.
Effect of phenolic compounds, ethyl alcohol, and sodium metabisulphite on the lytic activity of phage PL-1 on a *Lactobacillus casei* S strain
A. Lee, R. Eschenbruch, and J. Waller 873

Walmsley, S.
Swarmer cell differentiation of *Proteus mirabilis* in fluid media
H. Dick, R.G.E. Murray, and S. Walmsley 1041

Walter, J.A.
Pathway of ammonium assimilation in *Streptomyces venezuelae* examined by amino acid analyses and ^{15}N nuclear magnetic resonance spectroscopy
S. Shapiro, L C. Vining, M. Laycock, A.G. McInnes, and J.A. Walter 629

Warburton, D.W.
Effect of homogenization procedures on *Escherichia coli* counts in naturally contaminated cheese
P.I. Peterkin, A.N. Sharpe, and D.W. Warburton 180

Watanabe, I.
Hydrogen-supported N_2 fixation of *Pseudomonas* sp. and *Azospirillum lipoferum* under free-living conditions and in association with rice seedlings
T.K.S. Gowda and I. Watanabe 317

Stimulating effect of hydrogen on N_2 fixation in association with field-grown wetland rice
T.K.S. Gowda and I. Watanabe 503

Weete, J.D.
Cellular and chitosomal lipids of *Agaricus bisporus* and *Mucor rouxii*
John D. Weete, Rolf Furter, Edgar Hänseler, and Dora M. Rast 1120

Distribution of sterols in fungi. II. Brassicasterol in *Tuber* and *Terfezia* species
J.D. Weete, M. Kulifaj, C. Montant, W.R. Nes, and M. Sancholle 1127

Weldon, P.R.
An ultrastructural investigation of *Leishmania donovani* infection in genetically resistant and susceptible mouse strains
Peter R. Weldon and Patricia A.L. Kongshavn 256

Wenman, W.M.
The effect of ions on the adhesion and internalization of *Chlamydia trachomatis* by HeLa cells
John M. Sneddon and Wanda M. Wenman 371

Wheeler, R.
Erratum: Experimental studies of the pathogenesis of infections owing to *Pseudomonas aeruginosa*: elastase, an IgG protease
Ian Alan Holder and Robert Wheeler 91

White, D.C.
Quantitative determination of microbial activity and community nutritional status in estuarine sediments: evidence for a disturbance artifact
Robert H. Findlay, Peter C. Pollard, David J.W. Moriarty, and David C. White 493

Isolation and partial chemical analysis of firmly bound exopolysaccharide from adherent cells of a freshwater sediment bacterium
R.M. Platt, G.G. Geesey, J.D. Davis, and D.C. White 675

Determination of phospholipid ester-linked fatty acids and poly β-hydroxybutyrate for the estimation of bacterial biomass and activity in the rhizosphere of the rape plant *Brassica napus* (L.)
Anders Tunlid, Bruce H. Baird, Melanie B. Trexler, Stefan Olsson, Robert H. Findlay, Goran Odham, and David C. White 1113

Willetts, H.J.
Histochemical changes during conidiogenic germination of sclerotia of *Botrytis cinerea*
D. Backhouse and H.J. Willetts 282

Williams, G.D.
Characteristics of the outer membrane of selected oral *Bacteroides* species
G.D. Williams and S.C. Holt 238

Williams, R.E.
Erratum: Immunological and enzymatic properties of the *Desulfovibrio desulfuricans* hydrogenase
E. Ziomek, W.G. Martin, and R.E. Williams 182

Willison, J.H.M.
Ultrastructure of *Saccharomyces cerevisiae* strain AGI-7 and its responses to changes in environment
J.H.M. Willison and G.C. Johnston 109

An initial test of a method for the estimation of real mean particle size from shadowed samples
J.H.M. Willison 604

Wolfe, S.
Ammonium repression of cephalosporin production by *Streptomyces clavuligerus*
Alfredo F. Braña, Saul Wolfe, and Arnold L. Demain 736

Worthington, R.E.
Independent development of heat resistance and ascospores of *Hansenula anomala*
Wanfang Su, L.R. Beuchat, and R.E. Worthington 45

Wyndham, R.C.
Adaptation of estuarine bacteria to toluene at low concentrations in seawater: cometabolism of toluene
R.C. Wyndham 910

Yanong, R.
Substrate diversity of an active heterotrophic nitrifier, an *Alcaligenes* sp.
Domenic Castignetti, Rosemarie Yanong, and Robert Gramzinski 441

Yoshinari, T.
Nitrite and nitrous oxide production by *Methylosinus trichosporium*
T. Yoshinari 139

Zaleska, I.
Measuring the spermosphere colonizing capacity (spermosphere competence) of bacterial inoculants
J.W. Kloepper, F.M. Scher, M. Laliberté, and I. Zaleska 926

Zamir, D.
Application of enzyme electrophoresis for the identification of isolates in *Trichoderma harzianum*
DANIEL ZAMIR and ILAN CHET **578**

Zechman, J.M.
Volatiles of *Pseudomonas aeruginosa* and related species by automated headspace concentration – gas chromatography
JAMES M. ZECHMAN and JOHN N. LABOWS, JR. **232**

Zeph, L.R.
Bacterial control of *Agromyces ramosus* in soil
JEFFREY J. BYRD, LAWRENCE R. ZEPH, and L.E. CASIDA, JR. **1157**

Zevenhuizen, L.P.T.M.
Chemical and bacteriological composition of granular methanogenic sludge
J. DOLFING, A. GRIFFIOEN, A.R.W. VAN NEERVEN, and
L.P.T.M. ZEVENHUIZEN **744**

Zhongze, Z.
Effect of O_2 on vesicle formation, acetylene reduction, and O_2-uptake kinetics in *Frankia* sp. HFPCcl3 isolated from *Casuarina cunninghamiana*
MARCIA A. MURRY, ZHANG ZHONGZE, and JOHN G. TORREY **804**

Ziomek, E.
Erratum: Immunological and enzymatic properties of the *Desulfovibrio desulfuricans* hydrogenase
E. ZIOMEK, W.G. MARTIN, and R.E. WILLIAMS **182**
